

Supply List for Airbrushing

There are different types of airbrushes available in today's market; the choice is up to you. Your instructor, Mark Hatfield has suggested the double action gravity feed Eclipse Iwata airbrush that appears on the supply list below. Feel free to purchase another brand or bring your personal airbrush. Many companies offer a 10% student discount – just ask!

This course will use water-based paint. Students should plan to contact Vendors in advance to enable them to order the colors you request; they keep a limited supply on the shelf.
