

# Natural Resources and Agriscience

Programs of study related to the environment and natural resources. Careers may include agriculture, earth science, environmental sciences, fisheries management, forestry, horticulture, wildlife management, and many agri-business/agri-industry occupations. A successful candidate in this pathway prefers working outdoors and demonstrates an interest in the care of our environment.

- Environmental Science
- Geography
- Geology
- Natural Resources
- Natural Science
- Physical Science

## POSSIBLE CAREERS

### Certificate/Associate's Degree

- Conservation Officer
- Cooperative Extension Worker
- Diver
- Environmental Analyst
- Fish and Game Warden
- Hazardous Waste Manager
- Hydrographer
- Laboratory Tester
- Soil Conservation Technician
- Turf Manager

### Bachelor's Degree/Above

- Agricultural Engineer
- Agricultural Scientist
- Aquatic Biologist
- Archeologist
- Astronomer
- Biological Scientist
- Environmental Analyst
- Forester & Conservationist
- Geographer
- Geologist
- Geophysicist
- Horticulturalist
- Marine Biologist
- Meteorologist
- Oceanographer
- Park Ranger
- Soil Scientist
- Toxicologist
- Wildlife Agent
- Zoologist
