AIRBRUSHING

Employment Outlook

Opportunities Include: Auto body industry, boats, motorcycles, graphic designers, commercial and industrial designers, photo touch-up and restoration, freelance entrepreneur, custom clothing and fingernail art.

Growth Rate 13%

Artistic airbrushing is a highly desirable and marketable skill that can add stunning realism and dimension to a finished product. An art form for over a century, artists with airbrushing talent and techniques create custom images and graphics on virtually anything and everything.

Classes should be taken in order

Basic Airbrushing

DSGN-8001A

Learn to fully operate, clean and reassemble your airbrush the first night! Develop fundamental “brush” strokes and control through practice exercises. Study basic color theory, realism, how to cut or use masks, templates and shields. Open the door to creating special effects and learning professional techniques. Supplies needed  (10 sessions)

69622 MW 9/14-10/14 6:30-9:30 PM..... \$225 MTC 116 M. Hatfield

Intermediate Airbrushing

DSGN-8006

Master pro airbrush tricks, fine tune airbrushing skills and enhance your understanding of color theory. Learn to sequence projects for maximum efficiency and focus on surface preparation, special effects and 3D techniques. (10 sessions)

69623 MW 10/19-11/18 6:30-9:30 PM..... \$225 MTC 116 M. Hatfield
