The Macomb University Center Catalog
2017–2018

Higher Education Partnerships
in Macomb County

The idea was ahead of its time…

Higher Education Partnerships

The Macomb University Center (UC) is the first of its kind—anywhere. The concept: in partnership with 12 four-year institutions, you can complete a bachelor’s, master’s or doctoral degree in over 75 different fields—right on Macomb Community College’s Center Campus.

The Macomb University Center opened in 1991 to meet the needs of people like you: ambitious, focused on your career, ready to add to your credentials, and eager to move ahead professionally.

Most of all, the UC responds to reality: you’re busy, and a degree program that fits your schedule and is conveniently located is a real benefit. On average, UC students work 38 hours per week. They include men and women in the process of a career change, professionals who have reached a career plateau, and individuals who want to move up the career ladder.

Every degree program offered is designed to provide the fundamentals needed for success. The partnership brings together Macomb College and the prestige of Michigan’s leading colleges and universities, including:

- Central Michigan University
- Davenport University
- Ferris State University
- Madonna University
- Michigan State University
- Northwood University
- Oakland University
- Rochester College
- University of Detroit Mercy
- Walsh College
- Wayne State University
- Western Michigan University

Macomb provides technology-rich facilities and the resources you need to succeed, and our partner institutions provide the faculty and the curriculum. When you enroll, your financial obligation will be to that institution and your degree will be awarded from that institution as well.

In 2009, the Macomb University Center became home to an expansion site of the Michigan State University College of Osteopathic Medicine (MSUCOM). The MSUCOM at the UC provides the first two years of an osteopathic physician’s education.

Your best source of information for transferring to a Macomb University Center partner is to contact the institution you wish to attend. Each partner has an office located in the Macomb University Center; or, if you are a Macomb student, our counselors and advisors can assist you.

Following in this catalog is information about each partner and their programs and courses offered at the UC.

Still have questions?
Check out the FAQs listed on page 31 or feel free to contact us at 866.Macomb1 or visit www.macomb.edu/transfer.

Central Michigan University, Michigan’s fourth-largest state university, founded in 1892, offers several undergraduate and graduate programs at the Macomb University Center.

**Programs Offered**

**Bachelor's Degrees**
- Bachelor of Applied Arts in Administration with a concentration in Organizational or Industrial Administration
- Bachelor of Science in Administration with a concentration in Organizational or Industrial Administration
- Bachelor of Science in Community Development with a concentration in Public Administration, Health Sciences or Community Services

**Master's Degrees**
- Master of Science in Administration with a concentration in General Administration, Health Services, Human Resources, Information Resource Management, Public Administration, International Administration or Leadership

**Admission**

There are three convenient ways to apply for admission:
1. Apply online (pay by credit card or electronic check draft)
2. Download and print an application (pay by mail)
3. Request information and application to be mailed
   - Information Packet Request
   - Call 877.268.4636

You must be admitted to the university before you can begin taking classes. A $50 nonrefundable application fee is required in order to complete the application process. The application fee can either be paid online with a credit card or electronic draft, or by mailing a check or money order to the center to which you are applying.

CMU must have one official transcript from each of the institutions you’ve attended.

**Registration**

Complete priority registration information is available at https://www.cmich.edu/global/registration/Pages/default.aspx.

**Tuition and Payment Information**

Visit https://www.cmich.edu/global/finances/Pages/default.aspx for current tuition rates, fees and payment options.

**Refund Policy**

For students to receive a 100% refund they MUST drop the course prior to the start date. A $50 fee will be assessed and refunds will be prorated after the second class meeting. For more information, visit https://www.cmich.edu/global/courses/Pages/drop-withdraw.aspx.

**Textbooks**

MBS Direct is CMU Global Campus’ preferred bookstore partner. Access the following website for additional information https://www.cmich.edu/global/students//Pages/mbs-direct.aspx

**Academic Calendar**

Are you ready to get where the world is going?

Programs Offered

Bachelor's Degrees

- Bachelor of Business Administration in Accounting Fraud Investigation
- Bachelor of Science in Medical Case Management
- Bachelor of Science in Technology Project Management

Master's Degrees

- Master of Science in Technology Management

Admissions to Davenport University

1. Submit an official application, plus a $25 non-refundable application fee at www.davenport.edu/apply.
2. Provide official transcripts (one of the following):
   a. College transcript showing successful completion of transferable college-level math and English
   b. Official high school transcript documenting the date of graduation from a regionally accredited high school
   c. Official GED scores
3. Qualifying test scores (one of the following):
   a. Qualifying ACT or SAT score or
   b. Qualifying Accuplacer score

Submit official transcripts to:
Davenport University
Registrar’s Office
6191 Kraft Ave SE
Grand Rapids, MI 49512

University Admissions reviews all applications on a rolling basis. The applicant’s official transcripts, test scores, involvement, and program will be considered in the admissions decision.

Transferability — Davenport is Where You Want to Be!

Why not finish your bachelor’s degree close to home, with us? You’ll get a cutting-edge education and be prepared to excel. Bring on your best future with Davenport.

Because we concentrate on transfer students, we know what you need: courses that relate to the current job market; instructors who are working in the real work world and know what you need; flexible schedules with day, evening and online classes. With Davenport, you can earn your degree — on your schedule.

Visit http://www.davenport.edu/office-admissions/prospective-students/transfer-students/michigan-colleges to learn more about transfer options.

Tuition, Payment Options, & Refunds

Undergrad degree program offerings are $420 per credit hour, and graduate level courses are $719 per credit hour.

Visit http://www.davenport.edu/financial-aid/how-do-i-receive-accept-aid/payment-options-bursar to learn more about arranging payment, and to view Davenport’s refund policy.

MSU is dedicated to addressing the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family.

Doctor of Osteopathic Medicine—MSU
The MSU College of Osteopathic Medicine is dedicated to addressing the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family. While the educational program of the MSU College of Osteopathic Medicine is geared primarily to the training of primary medicine physicians, the curriculum and educational programs are designed also to meet the continuing need for medical specialists and teacher-investigators. Traditionally, osteopathic education seeks to prepare physicians who are especially concerned with maintaining continuing personal relationships with patients, their families, and their optimum interaction with the community environmental patterns. This emphasis is reflected in the nature of the curriculum and particularly reinforced during clinical clerkship rotations through a variety of clinical disciplines in both hospital and non-hospital settings. For more information see http://www.com.msu.edu.

Michigan State University College of Osteopathic Medicine—MSUCOM
As of July 2009, the Michigan State University College of Osteopathic Medicine is conducting courses at three sites: in East Lansing on the MSU campus, at the Detroit Medical Center downtown, and at the Macomb University Center. Assistant Dean Kirsten L. Waarala, D.O., leads the Macomb site. MSUCOM has consistently ranked in the top 10% of all medical schools in the nation for its primary care education.

Admission
Admission to MSUCOM requires competitive undergraduate grade point averages, MCAT scores, application to ACOMAS, transcripts, evidence of significant volunteerism, and other requirements. Virtually all applicants hold at least a bachelor’s degree. Pre-admissions counseling is highly recommended, as is planning for medical school as early as possible. For full up-to-date information see http://www.com.msu.edu/admissions. Information on registration is provided directly to students who are offered admission. College of Osteopathic Medicine courses are not available to students who are not enrolled at MSUCOM.

Program
- Doctor of Osteopathic Medicine (D.O.)

Contact Information
Anne Snyder, Admissions Counselor

At Northwood University, we believe the best investment is the one you make in yourself.

In today’s fast-paced business world, earning a degree from a regionally accredited university is essential. You work, organize, and lead, not only in business but personally as well. Northwood’s Adult Degree Program provides the flexibility you need to succeed in your educational goals. Our specialized business degree programs allow you to combine evening, weekend, and online courses to fit your schedule. Classes begin every 8 weeks.

**Programs Offered**

**Bachelor’s Degrees**
- Bachelor of Business Administration in Automotive Marketing & Management
- Bachelor of Business Administration in Entertainment, Sport & Promotion Management
- Bachelor of Business Administration in Entrepreneurship
- Bachelor of Business Administration in International Business

**Admission**
Admission applications can be completed online at https://apply.northwood.edu (it's free to apply!). Official transcripts and a resume will also be reviewed before an admission decision is made.

**Registration**
Students can register for classes using WebAdvisor. Login information will be sent to students once they have been accepted. The Program Center Manager can also assist students with first-time registration.

**Tuition and Payment Information**
Tuition for Northwood’s Adult Degree Program is $435 per credit hour ($1,305 per course). Tuition is due in full one week prior to the first day of class.

**Refund Policy**
Please visit http://www.northwood.edu/academics/adp/admissions/business-office.

**Textbooks**
Students will have to check their syllabus for on-ground and online courses (available 30 days prior to start date) for a listing of required textbooks. Students may purchase textbooks online from MBS Online Bookstore, accessible using their My.Northwood login credentials.

**Transferability**
Northwood University’s agreement with Macomb Community College allows up to 92 credits to transfer, which helps keep tuition costs down. Students utilizing financial aid may also take advantage of the Consortium Agreement between Macomb and Northwood, which allows concurrent enrollment so students can work on earning an associate and bachelor’s degree at the same time. Students not utilizing financial aid are also able to take advantage of concurrent enrollment to complete a degree quicker.

As Michigan’s largest independent university, University of Detroit Mercy has an outstanding tradition of academic excellence, firmly rooted in a strong liberal arts curriculum.

This tradition dates back to the formation of the two Detroit institutions: the University of Detroit, founded in 1877 by the Society of Jesus (Jesuits); and Mercy College of Detroit, founded in 1941 by the Religious Sisters of Mercy. In 1990, these schools consolidated to become University of Detroit Mercy—a university dedicated to providing affordable, accessible, quality education, while meeting the career preparation needs of a diverse student population.

Programs Offered

Bachelor's Degrees

- Bachelors of Arts in Financial Economics
- Bachelor of Science in Addiction Studies
- Bachelor of Science in Health Services Administration
- Bachelor of Science in Nursing (Degree Completion)

Master's Degrees

- Master of Arts in Curriculum and Instruction
- Master of Arts in Economics
- Master of Arts in Educational Administration and Leadership
- Master of Arts in Financial Economics
- Master of Science in Health Services Administration
- Master of Science in Nursing in Health Systems Management (MSN)

Admission

Please complete a free application online at www.udmercy.edu/apply. The application fee is waived.

Registration

Complete information on class schedules, payment methods and registration procedures is available at www.udmercy.edu. New students must see their academic advisor prior to registration.

Tuition and Payment Information

Information regarding UDM's tuition and fees may be found at http://www.udmercy.edu/apply/financial_aid/index.php. For the discounted cost of University Center programs, please call 586.263.6232.

Refund Policy

Complete information about UDM's refund policy may be found at http://www.udmercy.edu/sao/refunds/index.htm.

Textbooks

Students may purchase textbooks online at http://www.textbooks.com or http://www.amazon.com.

All over Michigan, businesses are turning to Walsh College for the brightest minds and transformative ideas. Recruiters are turning to Walsh graduates because they hit the ground running with a solid grasp of sound business principles and practical business knowledge. Future business leaders are turning to Walsh for progressive, hands-on classrooms and professors who are connected to boardrooms all over the state.

At Walsh College, we blend business theory and real-world experience to deliver educational programs that boost career success. Our faculty are not only dedicated teachers, but also business professionals who integrate their experience into what you learn in class. Administrative staff deliver personal service in a professional learning environment. Smaller classes give students growth opportunities through interaction with instructors, positive rapport with classmates, and exposure to diverse viewpoints. Many classes incorporate a "2+2" teaching model that includes online and on-ground classroom experience, melding the best of both worlds. The academic year consists of four 11-week semesters meeting once per week or online.

Programs Offered

Bachelor's Degrees
- Bachelor of Accountancy
- Bachelor of Business Administration in Finance
- Bachelor of Business Administration in General Business
- Bachelor of Business Administration in Management
- Bachelor of Business Administration in Marketing

Master's Degrees
- Master of Business Administration

Admissions and Transfer Information

Apply online at www.walshcollege.edu/applynow. Appointments are available to meet with a Walsh Admissions and Academic Advisor at all campus locations including the Macomb University Center. Walk-in Wednesdays are available as well. For complete information about admission requirements, policies and degree programs, view the catalog online at www.walshcollege.edu/catalog or visit www.walshcollege.edu/FutureStudents.

At the undergraduate level, everyone transfers to Walsh College. We offer only junior and senior level coursework leading to a bachelor’s degree. And unlike most business schools, Walsh allows you to transfer up to 82 semester credit hours. Walsh offers concurrent enrollment once you meet admission requirements at the undergraduate level. This is a great way to get started at Walsh while maximizing the transferability of your credits. Concurrent enrollment also offers more flexibility in scheduling—you can choose between courses available at your community college and those at Walsh each semester. Read more at www.walshcollege.edu/transfercollegecredit.

Registration

For complete information on registration policies and procedures please visit www.walshcollege.edu/registrationdates.

Tuition and Fees Information

Please visit www.walshcollege.edu/businessoffice for updated tuition and fee information.

Academic Calendar 2016–2017

Fall 2017
- Priority Registration begins: Aug. 7, 2017
- Regular Registration begins: Aug. 14, 2017
- Registration Ends: Oct. 3, 2017
- Classes Begin: Sept. 27, 2017
- Semester Ends: Dec. 16, 2017

Winter 2018
- Priority Registration begins: Nov. 20, 2017
- Regular Registration begins: Nov. 27, 2017
- Registration Ends: Jan. 9, 2018
- Classes Begin: Jan. 3, 2018
- Semester Ends: March 20, 2018

Spring 2018
- Priority Registration begins: Feb. 19, 2018
- Regular Registration begins: Feb. 26, 2018
- Registration Ends: April 8, 2018
- Classes Begin: April 2, 2018
- Semester Ends: June 18, 2018

Summer 2018
- Priority Registration begins: May 14, 2018
- Regular Registration begins: May 21, 2018
- Registration Ends: July 3, 2018
- Classes Begin: June 27, 2018

Walsh College is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools (www.ncahlc.org) and The Association of Collegiate Business Schools and Programs (ACbsp; www.acbsp.org).
Wayne State University (WSU) is a leading urban research institution and has been a symbol of excellence in higher education for nearly 150 years.

The individual schools and colleges of Wayne State offer undergraduate and graduate degrees in more than 380 academic areas, including several at the Macomb University Center.

**Programs Offered**

**Undergraduate:**
- Bachelor of Arts in Business Administration with a major in Global Supply Chain Management (Offered at ATEC/South Campus)
- Bachelor of Arts with a major in History, optional minor in Political Science or Criminal Justice
- Bachelor of Arts in Nutrition and Food Science
- Bachelor of Arts in Public Relations
- Bachelor of Science with a major in Computer Science (Offered at ATEC/South Campus)
- Bachelor of Arts/Science in Elementary Education with a major in Integrated Science or Mathematics
- Bachelor of Arts/Science in Elementary Education with a major in Special Education with a concentration in Cognitive Impairment
- Bachelor of Social Work
- Bachelor of Science in Construction Management Technology (Offered at ATEC/South Campus)
- Bachelor of Science in Electrical/Electronic Engineering Technology (Offered at ATEC/South Campus)
- Bachelor of Science in Mechanical Engineering (Offered at ATEC/South Campus)

**Graduate:**
- Master of Education with a major in Special Education and a concentration in Autism Spectrum Disorder
- Master of Education with a major in Special Education and a concentration in Cognitive Impairment
- Master of Education with a major in Special Education and a concentration in Learning Disabilities
- Master of Social Work
- Education Specialist Certificate with a major in Special Education and a concentration in Autism Spectrum Disorders
- Education Specialist Certificate with a major in Special Education and a concentration in Learning Disabilities

* Classes are held at the WSU Advanced Technology Education Center, 14601 E. 12 Mile Road in Warren.

---

**Admission**

Applications for admission to WSU are available online at apply.wayne.edu.

**Wayne Advantage-Macomb**

Wayne Advantage-Macomb allows you to seamlessly move between Macomb Community College and Wayne State, preparing you to pursue a bachelor’s degree while completing your associate degree at Macomb. As a Wayne Advantage-Macomb student, you can concurrently enroll at WSU and MCC, giving you a head start on your bachelor’s while you save money, familiarize yourself with Wayne State and meet with faculty and advisors who can help you make a smooth transition between both institutions.

When you enroll in Wayne Advantage-Macomb, you’re officially admitted to Wayne State, which means you can take courses at MCC, WSU or both institutions in the same semester. Wayne State offers hundreds of courses at a variety of times and locations, including several at WSU extension centers in Warren and Clinton Township—with walking distance of MCC’s South and Center campuses. Financial aid is also available for qualified students enrolled at either institution.

**Benefits**
- Schedule coordinated academic advising from both institutions in your program of interest.
- Receive support for academic and career success from both institutions, including tutoring, workshops, job opportunities and professional planning.
- Access the Macomb and WSU library systems for research and course preparation
- Enroll in Study Abroad programs
- Join academic Learning Communities
- Participate in WSU events and student organizations
- Use your WSU OneCard for everything from paying for parking and printing to purchasing a meal.
- Live on the WSU campus.

Note: Some benefits only available if you are currently enrolled in WSU classes. To learn more and apply, visit go.wayne.edu/wayne-advantage.

Western Michigan University is a national research university enrolling nearly 25,000 students from across the United States and more than 100 other countries. Founded in 1903, it is a learner-centered, discovery-driven and globally engaged public university that stands out among America’s more than 5,000 higher education institutions.

WMU-Clinton Township is one of eleven regional locations supported by WMU’s Extended University Programs department. Western Michigan University offers many of its academic programs at its regional locations and online, extending its reach and influence beyond its main campus in Kalamazoo. WMU-Clinton Township offers classes in a flexible format, ideal for working adults and nontraditional students.

Programs Offered

Bachelor’s Degree
- Bachelor of Science in Interdisciplinary Health Services

Master’s Degree
- Master of Science in Psychology-Behavioral Analysis

Admission
Contact Kristin Glaeser at 586.226.4838 for information about WMU’s application process.

Registration
Once accepted, students will receive an email with their Bronco NetID and password. To register for classes, visit gowmu.wmich.edu. Call the Office of the Registrar with any questions at 269.387.4300.

Tuition and Payment Information
Tuition and fees at Western Michigan University’s regional locations differs from those on its main campus. For complete information, including information about financial aid and scholarships, visit wmich.edu/extended/tuition or call Extended University Programs at 586.226.4838.

Refund Policy
The university grants refunds for students who withdraw or reduce their credit hour load within specified time frames. For more information, visit wmich.edu/registrar/calendars/academic. Call the Office of the Registrar with any questions at 269.387.4300.

Textbooks
Textbooks can be purchased online at Follett’s WMU Bookstore website, www.wmich.bkstr.com.

A transfer plan for each of the bachelor’s degree programs may be found at www.macomb.edu

* These programs have been temporarily suspended from the OU program offerings
Bachelor's Degrees

Bachelor of Arts in Communication—OU
Communication is a liberal arts major designed to engage students in creating a voice for influencing our social world. The program is student-centered with small class sizes and active interaction between students and professors. The Communication Program offers a range of courses emphasizing the combination of theory and practice to help students cultivate knowledge and hands-on experience that will assist them in a range of professional endeavors.

The career opportunities for communication graduates are impressive. Our students find employment in areas such as television broadcasting, radio production and broadcasting, public relations, advertising, nonprofit management, social media marketing, event planning, speech writing, governmental relations, and employment services.

Bachelor of Arts with a major in History—WSU
History is central to our understanding of the human experience. The study of our past allows us to place our world in context, whether we want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian—the ability to do extensive research in original sources, to think critically, and to write clearly and persuasively—are highly valued in our changing world and serve as an excellent preparation for a variety of careers.

Bachelor of Integrative Studies—OU
The Bachelor of Integrative Studies (BIS) degree is a university-wide degree program that enables students to custom design their own plan of study. The BIS degree integrates coursework from multiple disciplines to prepare students for academic and professional goals in a world that increasingly bridges academic disciplines.

The program weaves flexibility and decision making into an opportunity for students to achieve unique personal and career goals. Students in the program have clearly identified educational goals and academic needs that can be achieved better through the BIS degree than through a traditional major.

Bachelor of Science in Mass Communication—RC
The Bachelor of Science in Mass Communication degree completion program provides you with a unique educational opportunity through a partnership between Rochester College and Macomb Community College.

The program incorporates training in Macomb’s AAS Media and Communication Arts Program with in-depth explorations of theory and scholarship in media at Rochester College.

The curriculum is designed to help you expand your understanding of communication and develop essential skills needed to succeed and advance within the media industry.

Students interested in Mass Communications with a track in Media and Communication Arts must have completed a minimum of 50 credit hours from the Media and Communication Arts (MACA). Visit www.macomb.edu for more information on the MACA program at Macomb Community College.

Bachelor of Arts in Public Relations—WSU
Public relations is an exciting and challenging field that demands individuals with excellent communication skills. Most public relations classes are taught by faculty members who have professional experience in addition to their academic training. The practical applications of ethics are carefully considered. The program pays special attention to effective written and oral communication as well as developing a fundamental understanding of human communication and research methods. For complete course requirements, please refer to the College of Fine and Performing Arts website at www.cfpca.wayne.edu.

Bachelor of Science in Strategic Leadership—RC
This program integrates management and leadership courses to provide a comprehensive perspective of leadership that may be applied across a variety of disciplines and industries. The program is designed to provide students a broad-based degree that provides the foundation for future graduate work and professional advancement. This program may be completed in as little as 12 months.
BUSINESS

Bachelor’s Degrees

Bachelor of Accountancy (BAcct)—Walsh
Our Bachelor of Accountancy Degree (BAC) gives you the increasing depth of skills needed to practice as a Certified Public Accountant (CPA). The business world is becoming more complex. Our program will help you master that complexity. Our degree program satisfies the Certified Public Accountant license requirements while providing you with the business background and extensive accounting skills necessary for success as a CPA. Read more at www.walshcollege.edu/bachelorsaccountancy.

Bachelor of Business Administration—Accounting Fraud Investigation—DU
This program combines the development of technical skills in accounting, computer security, and legal investigation that are needed in fraud examination. Students specifically learn accounting principles, information systems, and auditing practices required in establishing internal controls for fraud prevention. In addition, this learning is coupled with the knowledge of network security that develops technological abilities in fraud detection. Interlacing the coursework in auditing and security is learning regarding the principles, methods, and techniques used in conducting criminal investigations, which brings the fraud examination full circle. This program also prepares students with the soft skills of communications, teamwork and leadership needed by the fraud examiner professional.

Bachelor of Business Administration (BBA)—Walsh
This degree familiarizes students with all aspects of business while allowing the student to major in the area that most interests them. Read more at www.walshcollege.edu/walsh_academics. The following are the majors students may pursue.

Finance: This major is for students who desire a career in general accounting or corporate/management accounting rather than public accounting with a CPA designation. The degree allows you to enter the accounting profession, providing a firm foundation in accounting while also allowing flexibility to enroll in several non-accounting courses to fulfill degree requirements. This program is not for students planning on taking the CPA exam, but rather prepares students to sit for the Certified Management Accountant and Certified Financial Manager Examinations.

General Business: This major is for the person who isn’t ready to specialize but wants a broad set of skills needed to start a successful business career. Coursework in accounting, economics, finance and communication prepares you for many different careers, including purchasing agent, customer service manager, supervisors, or sales manager.

Management: Managers make decisions, develop resources, set policies, take risks and motivate their co-workers and employees. The Management major prepares students for these responsibilities and more. With coursework in all areas of management, as well as a strong general business background, students will be ready for a career in human resource management, public administration, customer service, industrial production management, health care.

Marketing: The Marketing major is built on the four P’s – product, pricing, place of distribution and promotion. It provides students with in-depth understanding of these activities and their impact on consumers. Students also gain knowledge of the strategies, skills and technology necessary to excel in the field of marketing. These skills, coupled with a solid business background in finance, economics, accounting, management, and communication, prepare you for jobs in a broad array of fields including marketing research, advertising, public relations, marketing communications, internet marketing and sales.

Bachelor of Applied Arts in Administration—CMU
Like the BS degree, the BAA works well for students working in administrative careers in the public, non-profit and private sectors. The core courses provide a foundation in administrative competencies that are common to most supervisory positions, and the concentrations allow you to focus on an area of particular interest. The BAA allows you to take maximum advantage of licensure or other credentials you have already earned in your field. Appropriate course work and experience can be transferred into the program to meet requirements for one of several minors such as:
Economics, Industrial Technology, Leadership, Public Administration and Psychology. Graduates of this program are prepared for mid-level administrative positions in industry, hospitality, health care and related fields.

Bachelor of Science in Administration (BSA)—CMU

This degree program is primarily focused on the needs of students pursuing administrative careers in the private sector. The administrative core courses provide a foundation in managerial competencies that are common to most administrative positions, and the concentrations allow you to focus on an area of particular interest. Graduates of this program are prepared for careers as production managers, human resources administrators, small business owners, and other mid-level managerial positions.

This program is an excellent choice for students with a specialized associate degree, such as business construction technology, legal assistance, and others. It is also great for students with an associate degree in business who would like to add technical or specialized training to their credentials.

Bachelor of Business Administration in Automotive Marketing & Management—NU

This program provides the student with a well-rounded education in management for the automotive industry. This degree is well suited for individuals who are looking to advance into management or leadership careers. The Automotive Marketing and Management program is designed to integrate a foundation of business education and expertise that prepares graduates for a variety of automotive industry careers. Northwood is the only university that specifically prepares students for this expansive industry. The bachelor’s degree in Automotive Marketing and Management focuses on the various aspects of the automotive marketing function including dealership advertising, finance and insurance, budgeting and forecasting, parts and service and used car management.

Bachelor of Arts in Business Administration with a major in Global Supply Chain Management—WSU

Every successful organization owes a portion of its success to effective supply chain management and logistics. These processes focus on the production and distribution of goods and services. The market in which organizations compete has become increasingly global as they work with nondomestic suppliers, outsource business functions, and market goods and services to consumers around the world. Business leaders realize that a sustainable approach to managing global supply chains plays a significant role in achieving success. They need well-qualified supply chain professionals to meet the challenges and recognize opportunities. www.business.wayne.edu.

Bachelor of Science in Business Administration—FSU

The major in Business Administration is designed to prepare students for the rapidly changing nature of the work environment in business, government, and other nonprofit organizations. The program is designed to equip graduates not only for entry-level positions, but also for advancement as well. Building upon a core of business courses, the program features a tight sequence of major courses; however, the program also provides the flexibility to specialize in an area of interest for the student. The goals of this program are: to provide students a broad-based business education that will widen the field of start-up positions open to them upon graduation, to provide a solid undergraduate curriculum for those who intend to go to graduate school, and, finally, to establish a foundation for long-term career flexibility in a fast-paced and ever-changing competitive world. To these ends, the Business Administration Degree Program incorporates a combination of core business courses and application-oriented courses, concentrations that allow students to pursue specific areas of interest, internship opportunities, active student engagement opportunities, and faculty with real-world experience.

Bachelor of Science in Business Administration—Professional Track—FSU

This program will prepare you for the rapidly changing nature of the work environment in business, government and other nonprofit organizations and equip you with the skills you need for entry-level positions as well as advancement.

Building upon a core of business courses, the program features a tight sequence of major courses; however, the program also provides the flexibility to specialize in an area of business administration for the student. Students with associate degrees in technical fields will find the program attractive for building a solid knowledge of business and management upon their technical expertise. The major is also valuable as preparation for law school, as well as for graduate studies in business.

Bachelor of Business Administration in Entertainment, Sport & Promotion Management—NU

This program provides the student with a well-rounded education in the national and global expansion of entertainment and sport and its impact on cultural, social and economic issues at regional, national and international levels. The focus of the ESPM program is to educate and train students for the business and management aspects of the entertainment and sports industries. Coursework emphasizes a broad understanding of the business side of entertainment and leisure activities in America, including sports sociology, communication, the food and beverage industry, sports governance, the industry legal aspects, club, resort and facilities management, and ethics.

Bachelor of Business Administration in Entrepreneurship—NU

This program provides the student with a well-rounded education in business enterprise models and entrepreneurial bases. By combining a rigorous academic curriculum, leadership development, experiential learning and relationships with industry leaders, graduates prepare to become tomorrow’s entrepreneurs. Northwood University was founded on the principle that America’s free enterprise system, together with an entrepreneurial spirit, can create a bigger pie for all to share. We believe the entrepreneurial spirit can and should be taught to all generations, as it is the foundation of a free society. Within a few years after graduation, 25% of Northwood University graduates become business owners.
Bachelor of Arts in Financial Economics—UDM
This program entails the academic study of finance with a strong foundation in the theory and application of economic principles. Within the context of a liberal arts education, the program provides a deeper knowledge of history, institutions and world economy, and prepares you to think critically about moral and ethical issues that occur in the realm of financial economics.

The program curriculum focuses on:

- the role of financial economics within financial institutions, industry and government
- international finance and how it relates to the U.S. economy
- basic economic models and theories
- application of basic moral and ethical principles in the analysis of economic systems and issues

Bachelor of Science in General Management—OU
Students in the general management program gain a breadth of knowledge in all aspects of business, allowing them to pursue a wide variety of professional careers in business management. If you’re considering a more specialized graduate program, you may want to consider general management for your undergraduate degree.

The purpose of the general management major is to enable a student to choose a variety of management courses with the greatest flexibility (keeping in mind that core course requirements are the same for all majors). Substantial numbers of employers are looking for broadly educated students at the bachelor’s degree level, and many students are not ready to specialize early in their careers.

Bachelor of Science in Hospitality and Tourism Management—MU
This program addresses the emerging importance of the hotel, restaurant, and tourism industries, by preparing students for management careers in the hospitality field. As part of Madonna’s program, students complete an internship or cooperative education experience with a hospitality employer.

Course work relates to all the aspects of the industry: food service, lodging and resort operations, tourism, and conference and event planning.

Bachelor of Business Administration in International Business—NU
This program provides the student with a well-rounded education in the emerging global business environment. By combining a rigorous academic curriculum, leadership development, experiential learning and relationships with industry leaders, graduates prepare to become the future leaders of the competitive global marketplace. Crossing borders increases the complexity of business and with increasing globalization, businesses require individuals who can work in an international environment. In addition to learning policy and management strategies, students will achieve proficiency in a foreign language. With such extensive preparation, Northwood graduates launch careers in fields such as import/export management, economic development, international marketing and international telecommunications.

Bachelor of Business Administration in Management—RC
This degree program—The Bachelor of Business Administration with a management major degree completion program—offers a broad-based and versatile education in business management. Courses focus on the most pressing issues facing business and industry today. Collaboration with the business community will assure that this degree program is both practical and valued by employers. This program will prepare students for graduate programs in business.

Bachelor of Science in Medical Case Management—DU
This degree program is designed to prepare the individual who is interested in entering or advancing in the area of medical case management. The student will learn case management concepts such as assessing, planning, implementing, coordinating, monitoring, and evaluating the care of a client across the continuum of care. The program provides the student with knowledge of healthcare management and delivery, principles of case management practice, knowledge of healthcare reimbursement, psychosocial aspects of clients and rehabilitation. Graduates of the Program are eligible to sit for Certified Case Manager certification examination (without a higher degree or professional license) administered by the Commission for Case Manager Certification (CCMC) upon completing the required fieldwork experience.

Potential employment for medical case managers as a Care Manager, Care Coordinator, Community Outreach Specialist, Transitional Coach, and Case Manager (non-RN) work for health and human services organizations, insurance providers, integrated healthcare systems, physicians’ practices, rehabilitation agencies, government agencies, attorneys practicing in worker compensation and personal injury, disability network organizations or as an independent consultant.

Master’s Degrees

Master of Science in Administration (MSA)—CMU
This degree is a 36-semester-hour degree program that provides the knowledge and skills required for administrators and supervisors to function more effectively in a wide variety of administrative settings, plus the specialized processes and competencies needed for a particular professional field. GMAT or GRE entrance examinations are not required. If you are interested in upgrading your credentials, but not sure that you want to earn a complete master’s degree, you can opt for a graduate certificate from CMU. Each of the MSA concentrations is available as a graduate certificate and include General Administration, Health Services Administration, Human Resources Administration, Information Resource Management, International Administration, Leadership, and Public Administration. You can apply credits earned in the certificate program to the MSA degree if the concentration is the same.
Master of Business Administration (MBA)—Walsh

The Walsh College Master of Business Administration (MBA) degree program will enhance a student’s ability to incorporate opportunistic decision-making and systematic approaches in solving complex problems. Students will develop a framework of how to think and make decisions in today’s fast-paced, business environment. Courses in the Walsh MBA are taught by proven business leaders who are experienced practitioners in their fields – this bridges the gap between real-world practices and classroom experience.

The Walsh MBA prepares graduates for positions in mid- to upper-management by providing a broad, general education in major areas of business study. The MBA program encompasses the study of accounting, finance, management, information technology, economics, strategy, and related disciplines. It also encompasses business communication skills now demanded by employers, helping graduates explain concepts and share knowledge more concisely.

The Walsh MBA consists of 15 courses for 42 credits. Students looking to combine the breadth and prestige of the MBA with the specialization of a Master of Science (MS) degree can choose from one of four dual-degree options. Students earn two distinct master degrees by completing an additional four to six courses. The dual-degree options are Dual MBA/MS in Finance, Dual MBA/MS in Information Technology Leadership, Dual MBA/MS in Management, and Dual MBA/MS in Marketing. Read more at www.walshcollege.edu/mba.

Master of Arts in Economics—UDM

This degree program offers you the ability to learn and apply economics and financial principles to the U.S. and international financial systems. Grounded in a liberal arts foundation, the degree program also provides you with a deeper knowledge of history, institutions and world economy. The degree program includes two tracks including the Theory Track, which is more academically oriented, and the Applied Track, which is more practically oriented. The Economics graduate program will prepare you for career advancement in the private sector (nonprofit institutions, school systems, industry and financial institutions) as well as in various levels of government. The degree will also prepare you for managerial advancement in the rapidly emerging international sector of the economy. Upon completion of the graduate degree in Economics, you will have:

- working knowledge of how economics is woven into the fabric of institutions, industry and government
- an understanding of international economics and how it relates to the U.S. economy
- a greater awareness of moral and ethical issues and principles as they relate to economic concepts and theories

Master of Arts in Financial Economics—UDM

This degree program focuses on the study of economics and financial principles related to U.S. and international financial systems. The program also provides a deep knowledge of history, institutions and world economy. As a liberal arts degree, the program also addresses moral and ethical issues related to the field of finance. Upon completion of the graduate degree, you will understand:

- how financial economics is integral to financial institutions, industry and government
- international finance and its relationship to the U.S. economy
- a variety of economic models as well as the moral and ethical implications of economic decisions and options
- the U.S. system of money, banking, and other business expertise
- investments and U.S. government policy and financial systems
- the relationship between the public and private sectors
### Bachelor's Degrees

**Bachelor of Arts/Science in Education (Elementary Certificate—Science or Math Major)—WSU**
The WSU Elementary Education Program at the University Center offers a Bachelor of Science or Arts in Elementary Education. Students may choose to major in either Group Science or Mathematics. The Group Science major includes courses in astronomy, biology, chemistry, geology, and physics. Both majors also include additional methods courses offered by the College of Education. A minor in Science or Math is optional. The elementary certificate earned in this program qualifies the holder to teach all subjects in K–8 in a self-contained classroom, and K–5 in all subjects. Additionally, the major and minor subjects may be taught in the sixth through eighth grades. For complete course requirements please refer to the College of Education website at www.coe.wayne.edu.

**Bachelor of Science in Elementary Education—OU**
The Bachelor of Science in Elementary Education program prepares high quality teachers for the schools in the state of Michigan and throughout the country. Students completing this program concurrently earn a Bachelor of Science degree and recommendation for a Michigan provisional certificate in elementary education. Graduates of the program are also eligible for grade 6-8 endorsements in one or more of the following areas: language arts, mathematics, modern languages, science and social studies. Students who hold a bachelor's degree can pursue the program as second undergraduates.

The Teacher Education Accreditation Council (TEAC) approves the Teacher Development and Educational Studies (TDES) undergraduate elementary education program, and our graduates are recognized throughout the state for the quality of the preparation they receive at Oakland University. The professional portion of the OU Elementary Education program is offered in its entirety at the Macomb University Center in a cohort format.

**Bachelor of Arts/Science in Elementary Education with a major in Special Education with a concentration in Cognitive Impairment—WSU**
Teaching as a profession has never been more exciting. Increasingly, certified teachers in the area of Special Education are in high demand and are especially successful in obtaining employment. The WSU and Special Education Program at the Macomb University Center leads to a Bachelor of Arts or Science in Elementary and Special Education with an endorsement in Cognitive Impairment. The program is designed for you to receive a Michigan Elementary Provisional Teaching Certificate for teaching all subjects in grades K-5, all subjects K-8 in a self-contained classroom, and for teaching students who have cognitive impairments in grades K-12. For complete course requirements, please refer to the College of Education website at www.coe.wayne.edu.

### Master's Degrees

**Master of Arts in Curriculum and Instruction—UDM**
The Master of Arts in Curriculum and Instruction is designed for students who seek to use prior education and experience as a base for developing the reflective practitioner skills of a master educator and educational leader. Students acquire an operational framework of core competencies that utilize a comprehensive knowledge and skill base to plan, monitor, and adjust teaching strategies within the complex and rapidly changing contextual situations of educational settings.

Students work closely with their program advisors to select a program focus and to plan a course of study which includes prior knowledge, experience, and special interests. For complete program requirements, refer to the Curriculum and Instruction website http://liberalarts.udmercy.edu/programs/depts/education/grad/curriculum/ma_curriculum/index.htm.

**Master of Arts in Educational Administration and Leadership—UDM**
The Master of Arts degree in Educational Administration and Leadership is designed for those individuals who are interested in pursuing a professional career in educational administration and leadership as a principal, assistant principal, or other district and/or school leadership administrative positions.

The requirements for admission to graduate study in educational administration include a 3.0 average, fulfillment of requirements for a state teaching certificate or a background of education and experience satisfactory to the program director, and three letters of recommendation submitted by persons capable of evaluating the student’s potential for leadership in this field. For complete program requirements, refer to the Educational Administration website http://liberalarts.udmercy.edu/programs/depts/education/grad/ma_ed_admin/index.htm.

**Master of Education in Special Education and a concentration in Autism Spectrum Disorders—WSU**
WSU develops professionals who are committed to helping others acquire the knowledge, skills and understanding necessary to participate in and contribute to a complex, changing society. This program is designed as an endorsement program to meet the Michigan Department of Education Special Education rules for teacher preparation in the area of autism spectrum disorders. It is appropriate for educators with elementary or secondary certification with a teaching major in an approved content area. www.coe.wayne.edu. For complete course requirements please refer to the College of Education website at www.coe.wayne.edu.
Education Specialist Certificate in Special Education and a concentration in Autism Spectrum Disorders—WSU

There is a growing demand for well-prepared professional educators who can become tomorrow's effective leaders. An Education Specialist Certification from Wayne State University's College of Education can help you reach your potential for greater job satisfaction, higher earnings, increased responsibility, and personal fulfillment. We emphasize diversity, innovation, technology, and state-of-the-art, research-based practices. Our professors are leaders in their fields and provide programs based on nationally recognized standards. For complete course requirements please refer to the College of Education website at www.coe.wayne.edu.

Education Specialist

Education Specialist in Leadership—OU

The Education Specialist Degree (Ed.S.) in (K-12) Leadership is a 34-credit, cohort-structured, post-master's degree program designed for individuals who are looking to further their education and aspire to positions in education administration. The curriculum is relevant—aligning instruction with the true experience in leadership—and connects with current issues in K-12 education. Students are recommended for the Administrator Certificate (Building Level). Twenty-eight credits earned in the Ed.S. program can be applied toward Oakland University's Ph.D. in Education. Classes are taught with face-to-face, hybrid, and 100% online cohort modules available.

Master of Education with a major in Special Education and a concentration in Cognitive Impairment—WSU

This program is designed as an endorsement program to meet the Michigan Department of Education Special Education rules for teacher preparation in the area of cognitive impairment. It is appropriate for educators with elementary or secondary certification with a teaching major in an approved content area. For complete course requirements please refer to the College of Education website at www.coe.wayne.edu.

Master of Education in Special Education and a concentration in Learning Disabilities—WSU

This program develops professionals who commit to helping others acquire the knowledge, skills and understanding necessary to participate in and contribute to a complex, changing society. This program is designed as an endorsement program to meet the Michigan Department of Education Special Education rules for teacher preparation in the area of learning disabilities. It is appropriate for educators with elementary or secondary certification with a teaching major in an approved content area.

Education Specialist Certificate in Special Education and a concentration in Learning Disabilities—WSU

There is a growing demand for well-prepared professional educators who can become tomorrow’s effective leaders. An Education Specialist certificate from WSU's College of Education can help you reach your potential for greater job satisfaction, higher earnings, increased responsibility, and personal fulfillment. We emphasize diversity, innovation, technology, and state-of-the-art, research-based practices. Our professors are leaders in their fields and provide programs based on nationally recognized standards. For complete course requirements please refer to the College of Education website at www.coe.wayne.edu.
ENGINEERING, COMPUTER SCIENCE, TECHNOLOGY

Bachelor's Degrees

Bachelor of Science in Automotive Management—FSU
This degree concentrates on managerial skills required by the industry. Instruction is provided in the areas of management, sales, marketing, distribution, customer relations, warranty administration, franchising, dealership operations, accounting, financing, and related computer skills.

Bachelor of Science in Mechanical Engineering—OU
The field of mechanical engineering offers career opportunities in areas such as design, analysis, test development, research and the manufacturing of various products.

Oakland University’s mechanical engineering program provides the student with a foundation in the fundamental concepts and principles associated with mechanics of solids, thermodynamics, fluid and thermal energy, materials, manufacturing, design of mechanical systems, electrical circuits, computer programming and software utilization. A strong laboratory experience and the utilization of computers is interwoven through the curriculum. The program also provides numerous engineering design experiences.

Bachelor of Science in Computer Science—WSU
A degree in computer science is a pipeline to one of the hottest career fields in today's market. A high-quality, innovative education focusing on the fundamentals of computer science while emphasizing technology, prepares students for employment and advanced studies. Students receive guidance and can pursue research opportunities in many areas, including artificial intelligence, bio-informatics, networking and wireless networking, databases, distributed and parallel computing, security, graphics and visualization, and software engineering.

A recently revised curriculum includes a high degree of hands-on experience with real-world systems, increased personal attention, undergraduate participation in research projects, and a carefully crafted progression of course content as students advance through the program. Students also can apply for Study Abroad opportunities at European schools, including the Polytechnic School of Nantes, France.

Bachelor of Science in Construction Management Technology—WSU
This degree program was developed collaboratively with Macomb Community College. Students with an associate of applied arts in architectural technology, construction technology or civil technology will find transferring to this program easy. This specialization includes coursework in construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses in accounting, marketing and management complement the program. Co-op and internship opportunities are available.

Bachelor of Science in Electrical/Electronic Engineering Technology—WSU
Engineering technicians apply principles of engineering, mathematics and science to the operation or testing of engineering and manufacturing systems. An engineering technologist working in research and development often is involved in data collection or may prepare or conduct experiments. They may also participate in design work through the use of computer-aided design systems.

Graduates of engineering technology and engineering programs complement each other in their skills and interests.

This program is housed at the WSU Advanced Technology Education Center (ATEC) on 12 Mile Road in Warren, across from MCC South Campus. ATEC offers state-of-the-art laboratories and advanced classroom settings, and is designed to incorporate new technologies as they emerge in future years. ATEC provides an electric vehicle technologies center of excellence, where WSU and MCC faculty engage in research, development and delivery of electric and automotive battery technologies.

Bachelor of Applied Science in Industrial Technology & Management—FSU
The Industrial Technology & Management degree is designed for those involved in any one of a number of areas in manufacturing who may possess many manufacturing or business-related credits or an associate degree, and who desire a bachelor’s degree. This degree program will assist persons who want to make a career change with their current employer or a career transition to a new employer. It is designed to assist persons who desire to work in production supervision, sales engineering, production planning, quality, engineering supervision, and project management, among other positions.

The Industrial Technology & Management program is designed to complement previous training in a technical area in order to help individuals move into a management role in a manufacturing or related facility. The degree program is interdisciplinary, bringing components of various programs together with specialty courses that expand the knowledge base of the student in manufacturing and industrial settings. The foundation classes provide depth of knowledge applicable to any technology field with classes in automation, globalization, lean manufacturing, OSHA safety, general management, quality statistics, and industrial operations.

Bachelor of Science in Mechanical Engineering—WSU
Mechanical engineering is a creative discipline that draws upon a number of basic sciences to design devices, machines, processes and systems that involve mechanical work and its conversion from and into different forms of energy. The challenge of mechanical engineering may lie in the perfection and reliability of a device that will be duplicated a million-fold or in the control optimization of a single complex system of unique design.
Students will apply leadership tactics, basic observational methods and logical reasoning to demonstrate best practices in problem solving with foundational knowledge in the following areas: industry regulations, network technologies, product and project management, risk mitigation, business continuity and information technology disaster recovery, total quality management, budgeting and return on investment by using appropriate tools, methods and applications. Students will also choose electives based on their career focus and complete a thesis under the direct guidance of a faculty member. The elective courses will provide an introduction to the different technical and administrative aspects of Technology Management. Topics will include: wireless networks, accounting information systems, banking and financial security, as well as leadership and change management strategies.

Bachelor of Science in Technology Project Management—DU

This Technology Project Management program is designed to prepare students for various management positions within the technology field. Course work integrates accounting, finance, production, computer networking, and CIS with in-depth project management practices. Industries examined include IT, health care, construction, manufacturing, service, and government. Students have the option of refining their focus by selecting specialty concentration options in concentration options in Networking, CIS, Information Security, Health Information Management, and Accounting Information Systems or creating an individualized specialty. Students also have the option of selecting the Professional Focused Technical Specialty.

Master's Degrees

Master of Science Technology Management—DU

Davenport's Master of Science in Technology Management is a high quality, interdisciplinary technical and business graduate curriculum designed for today's organizations. This program prepares graduates for a life-long career addressing critical leadership roles in private, public or government organizations. The MS in Technology Management combines a set of business and technical competencies to give Davenport University graduates the competitive advantages needed to lead information technology departments in the global economy.
HEALTH

Bachelor's Degrees

**Bachelor of Science in Health Services Administration (HSA)—UDM**

This degree program is designed to educate knowledgeable, multi-skilled current and future health care leaders. The HSA program is designed to prepare individuals for entry and/or middle management or clinical supervisory positions in organizations, institutions and agencies that deliver health services. This is accomplished by providing a strong foundation in management with a depth and breadth of applications to the health care system. The program is accessible to working adults who cannot take time away from jobs and families for full-time study. Students may complete their 126-credit degree in as little as two years. Graduates hold positions such as internal auditor for Medicare Payments, supervisor of Billing and Reimbursement, director of Community Relations, Claims Adjustment supervisor, office manager, and regional manager for Clinic Services. They work for organizations such as Blue Cross and Blue Shield, Hospice of Southeastern Michigan, Trinity Health Corporate Office, HAP, Eli Lilly, Wyeth, and virtually all of the Metro Detroit hospitals.

**Bachelor of Science in Interdisciplinary Health Services—WMU**

Western Michigan University prepares students to take their place as interdisciplinary team members in today’s health and human services systems. Students will be competent in working in interdisciplinary teams; providing patient- and family-centered services; building health literacy skills; developing quality improvements; and utilizing informatics for documentation, training, program development and evidence-based research.

**Bachelor of Science in Nursing (Degree Completion)—UDM**

This degree completion program is a flexible option for registered nurses who have completed diploma or associate degree programs. The BSN completion program accommodates learning needs and career goals of the adult learner with minimal repetition of learning experiences. The program supports enhancement and growth through the study of liberal arts and sciences, as well as the study of professional nursing. Competencies needed by BSN-prepared nurses are emphasized, including leadership and management skills, health promotion, risk reduction, illness and disease management strategies for clients, families, and communities, and health care economics. Additional skills include effective use of evidence-based proactive protocol to ensure delivery of cost-effective and appropriate care, use of information technology in clinical settings to manage and make clinical decisions, and care-and case-management strategies with enhanced understanding of health care economics and policies.

**Bachelor of Arts in Nutrition and Food Science—WSU**

This curriculum is designed for those interested in non-technical positions in the fields of nutrition and food science. These include sales, food service management, customer relations, etc. Elective courses from the business school or community colleges may be applied. Employment opportunities include school or university food service, industrial and commercial food service, hospitals, nursing homes and extended care facilities.
Master’s Degrees

Master of Health Services Administration—UDM
This degree program is designed to educate knowledgeable, multi-skilled current and future health care leaders. The Masters of Health Services Administration (MHSA) builds on the health-related preparation and work experience that students bring to the program and develops advanced competencies in management, research techniques and fiscal management. Courses are offered in formats designed for the working person. The MHSA program is accessible to working adults who cannot take time away from jobs and families for full-time study. Health care cases and content are fully integrated into each course and health care management texts are used along with Internet resources. The 42-credit master's degree can be completed in five semesters by attending evening and online classes. The UDM Masters of Heath Services Administration graduate program is distinct from an MBA in that it integrates management theory with specific applications to health care, including topics unique to the field, such as financial management in the context of managed care and third-party reimbursement.

Master of Science in Nursing in Health Systems Management (HSM)—UDM
This program prepares the advanced practice nurse to manage and lead the delivery of nursing and health care in multiple settings across the health care continuum. The program will assist nurses in developing the knowledge, skills, and abilities needed to maintain and improve care quality, efficiency, and access. It is designed to prepare nurse leaders who can address contemporary issues in the evolving health care environment. In addition to the Health Systems Management degree program, several certificate options are available in HSM. The certificates require completion of 12 credits and include the Nursing Leadership and Financial Management Certificate and the Outcomes Performance Management Certificate. Those who have completed the certificate program or the HSM program are both eligible to sit for the certification examination in Nursing Administration administered by the American Nurses Credentialing Center (ANCC) or the Case Manager certification exam administered by the Commission for Case Manager Certification (CCMC).

Doctoral Degree

Doctor of Osteopathic Medicine—MSU
The MSU College of Osteopathic Medicine is dedicated to assisting in the solution of the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family. While the educational program of the MSU College of Osteopathic Medicine is geared primarily to the training of primary medicine physicians, the curriculum and educational programs are designed also to meet the continuing need for medical specialists and teacher-investigators. Traditionally, osteopathic education seeks to prepare physicians who are especially concerned with maintaining continuing personal relationships with patients, their families, and their optimum interaction with the community environmental patterns. This emphasis is reflected in the nature of the curriculum and particularly reinforced during clinical clerkship rotations through a variety of clinical disciplines in both hospital and non–hospital settings. For more information see http://www.com.msu.edu/program.
HUMAN SERVICES

Bachelor's Degrees

Bachelor of Science in Addiction Studies—UDM
The Addiction Studies program educates students in the knowledge and skills required to provide prevention, assessment, referral, and treatment services for individuals and families who suffer from addictive disorders. The curriculum satisfies the prerequisites for the M.A. as well as the education and internship requirements for the Certified Addictions Counselor (CAC) credential awarded by the State of Michigan.

Bachelor of Science in Community Development (BSCD)—CMU
This degree program is designed for people interested in working in the public sector or human services areas. Graduates are prepared for careers as city, county, state, or federal administrators; agency managers; public health professionals; community education directors; and more.

Bachelor of Science in Criminal Justice—FSU
This program gives you a general education in criminal justice, but also lets you choose to focus on specific technical skills by enrolling in clusters of courses in the areas of forensic science, communications, accounting, computer information systems, human resource management, Spanish, or social sciences. Course work is designed to provide an understanding of criminal justice, while allowing you to obtain special work-related skills that will open opportunities in a variety of criminal justice agencies, or pursue the bachelor of science degree with the intent of pursuing further graduate or professional studies.

Bachelor of Science in Criminal Justice—MU
Criminal justice graduates often find employment in federal, state, or local branches of government, law firms, or private organizations. Employment possibilities also include homeland security (the fastest growing area in federal government), corrections and law enforcement. Madonna’s program helps prepare students for careers that involve research, criminal investigation, intelligence, probation and parole counseling, victim-witness or prisoner advocacy, consumer fraud, crime prevention, and drug enforcement.

Bachelor of Science in Early Childhood Studies—RC
The Early Childhood Studies degree completion program is for individuals who are currently employed in the early childhood field (Head Start, preschools, daycares, etc.) and is designed to help prepare you for leadership roles. The curriculum focuses on growth and development of young children, the influence of family dynamics, and education patterns of young children. Leadership, reporting, and legal issues are also explored. This program does not qualify for state teacher certification. Regular admission to the program requires completion of an associate degree in Early Childhood and current employment in the early childhood field.

Bachelor of Science in Emergency Management—MU
This program prepares students for careers in disaster management, homeland security, and rescue. The course work provides students with employable skills in preparing for, mitigating, responding to, and recovering from natural, man-made and technological incidents. It empowers students to identify, integrate, and allocate resources that exist in the nonprofit, private, and public sectors with an emphasis on coordinating with those groups and all levels of governmental response agencies.

Bachelor of Science in Human Resource Development—OU
With a bachelor of science in Human Resource Development, you will be prepared for administrative and training careers in business and industry, where you can create new ways to train and support employees.
Students complete the core curriculum and have the option of choosing between four areas of emphasis by adding a minor to their degree program. Students can earn a minor in training and development, employment systems and standards, organization and career development or applied leadership skills in addition to earning their bachelor of science in HRD. These minors are also available to any student admitted to the university.

Bachelor of Science in Paralegal Studies—MU
This degree completion program allows Associate of Applied Science Legal Assistant graduates to receive a Bachelor of Science degree in Paralegal Studies from Madonna University’s American Bar Association-approved program. The focus is on legal research and the technology utilized in a modern law practice setting. Students can major in Paralegal Studies for law school.

Bachelor of Science in Psychology—RC
This degree program is designed for adults pursuing a career in a mental health field. Most students who complete this program will choose to continue on to graduate school for further training toward licensure as a psychologist, psychotherapist, professional counselor, or social worker. Although this program meets the preparatory needs of most graduate schools, students should consult the graduate school of their choice for specific requirements. The Psychology program is a unique blending of psychology and counseling courses presented from a moral viewpoint with emphasis on the Christian perspective.

Bachelor of Social Work—WSU
Education for social workers has been an integral part of this large and respected urban university for over fifty years, and WSU is proud to offer this program to students living and working at a distance from the main campus. The School of Social Work provides educational offerings at the undergraduate and graduate levels. Its programs are accredited by the Council on Social Work Education. For complete course requirements, please refer to the School of Social Work website at www.socialwork.wayne.edu.
Master's Degrees

Master of Arts in Counseling* — OU
The counseling profession helps people to become self-aware, growth-oriented and effective in mastering the challenges of life. Counselors—as skilled, perceptive, broadly educated professionals—assist clients in identifying areas for improvement and in carrying out changes that promote life fulfillment. Drawing upon a foundation of research and theory in philosophy, psychology and education, counselors use therapeutic skills and consultation techniques with both individuals and groups. In any setting, the goal of counseling is to help people expand their potential, facilitate development and live more satisfying and productive lives.

In order to prepare students for this difficult task, the master's degree programs in counseling at Oakland University set forth curricula designed to foster both personal development and the acquisition of a broad range of knowledge and skills.

* This program has been temporarily suspended from the OU program offerings

Master of Science in Criminal Justice Leadership and Intelligence—MU
The Master of Science in Criminal Justice Leadership and Intelligence offers a planned program of educational experiences for the graduate student interested in advancing in a key leadership role in criminal justice as well as corporate security and intelligence. The program accentuates professional leadership while focusing on a broad range of criminal justice issues, emphasizing the problems of crime and the criminal justice system's response to it. Successful graduates will explore contemporary issues including: the realities of implicit bias, risk management, community policing, corporate fraud, and terrorism. These complex examinations will prepare future leaders to confront the difficult questions surrounding justice in a democratic society. This program is unique to other Masters in Criminal Justice programs as it is the only one in Michigan that focuses on leadership and intelligence.

Master of Arts in Psychology—Behavior Analysis—WMU
Master of Arts in Behavior Analysis at WMU is accredited by the Association for Behavior Analysis International. It also contains all the required courses as well as supervised field experience so that individuals who successfully complete the courses and required field work are eligible to sit for the exam to become a Board Certified Behavior Analyst (contingent upon passing the exam). The course sequence is pre-approved by the Behavior Analyst Certification Board. The master's program prepares students for doctoral study work or for work at the M.A. level with individuals and organizations in developmental disabilities, mental illness, substance abuse, community mental health, education, government, business and industry. A minimum of 36 hours is required, and a minimum grade of B is required in all coursework in the program. A minimum of 36 hours is required, and a minimum grade of B is required in all coursework in the program. An undergraduate major in Psychology is preferred; a minimum of 18 hours in Psychology is required for admission. For more information, visit wmich.edu/metrodetroit/behavioranalysis.

Master of Social Work—WSU
Wayne State University offers students the opportunity to attend classes toward a master's degree in Social Work at the University Center. Summer bridge courses and advanced year courses are offered for students admitted to the MSW program with Pre-Candidate Master's (Advanced Standing) Status or who have completed the core curriculum. Please note, not all courses will be available at the University Center. For additional information regarding course offerings, please consult the WSU course schedule online at www.classschedule.wayne.edu. For complete course requirements please refer to the School of Social Work website at www.socialwork.wayne.edu.
FREQUENTLY ASKED QUESTIONS

How do I apply?
Courses offered at the University Center are third- and fourth-year and graduate level only. You must have the appropriate level of college credits—a minimum of 60 for most bachelor’s degree programs—before you’re eligible to transfer to be admitted. Completion of an undergraduate degree is the minimum requirement for admission to master’s and doctoral degree programs.

To apply to a bachelor’s degree program:
1. Enroll at Macomb Community College and later apply to transfer to the University Center partner of your choice.
2. Enroll directly at the senior institution if you’ve completed the lower-division credits.

If you’re a current Macomb student and plan to attend the University Center, contact a Macomb advisor. That way, you’ll know your community college credits will transfer.

To apply to a master’s degree or Doctor of Osteopathic Medicine degree program:
Apply directly to the college or university offering the degree.

Can I afford it?
Each of our partner institutions sets its own tuition rate—and you may be eligible for financial aid or tuition reimbursement from your employer. You can find tuition rates by visiting www.macomb.edu/UC and then linking to the University Center partner; or, by calling the partner directly.

To apply for financial aid, a student must submit a Free Application for Federal Student Aid (FAFSA), which is available from Macomb’s Financial Aid Offices, www.macomb.edu, on the Financial Aid Offices of the University Center partners. Each of these offices will also provide information about specific financial assistance or scholarship opportunities available through their particular institution.

How long will it take to finish?
For most programs, partner institutions schedule their courses with sufficient frequency so that students can complete their degree in two to three years. A variety of course formats are offered for some programs, including accelerated or online class options. Some students opt for one course each semester. Others hop on the fast-track and take more than one course a term. The University Center’s programs provide the flexibility you need to fit your schedule.

How do I register for classes?
You can register on site or in most cases by web, phone or mail. See the University Center Schedule of Classes for each institution’s registration calendar.

Where can I find more answers?
We’re happy to answer your questions—in person, on the phone, or online. For more information about the University Center, its programs, and admission and enrollment procedures, call the college or university, or Macomb’s Information Center toll free at 866.Macomb1. Visit us online at www.macomb.edu/UC.
