The idea was ahead of its time…

Higher Education Partnerships

The Macomb University Center (UC) is the first of its kind—anywhere. The concept: in partnership with 12 four-year institutions, you can complete a bachelor's, master's or doctoral degree in over 60 programs—right on Macomb Community College’s Center Campus.

The Macomb University Center opened in 1991 to meet the needs of people like you: ambitious, focused on your career, ready to add to your credentials, and eager to move ahead professionally.

Most of all, the UC responds to reality: you’re busy, and a degree program that fits your schedule and is conveniently located is a real benefit. On average, UC students work 38 hours per week. They include men and women in the process of a career change, professionals who have reached a career plateau, and individuals who want to move up the career ladder.

Every degree program offered is designed to provide the fundamentals needed for success. The partnership brings together Macomb College and the prestige of Michigan’s leading colleges and universities, including:

- Central Michigan University
- Davenport University
- Ferris State University
- Madonna University
- Michigan State University
- Northwood University
- Oakland University
- Rochester University
- University of Detroit Mercy
- Walsh
- Wayne State University
- Western Michigan University

Macomb provides technology-rich facilities and the resources you need to succeed, and our partner institutions provide the faculty and the curriculum. When you enroll, your financial obligation will be to that institution and your degree will be awarded from that institution as well.

In 2009, the Macomb University Center became home to an expansion site of the Michigan State University College of Osteopathic Medicine (MSUCOM). The MSUCOM at the UC provides the first two years of an osteopathic physician’s education.

Your best source of information for transferring to a Macomb University Center partner is to contact the institution you wish to attend. Each partner has an office located in the Macomb University Center; or, if you are a Macomb student, our counselors and advisors can assist you.

Found in this catalog is information about each partner and their programs and courses offered at the UC.

Still have questions?
Check out the FAQs listed on page 28 or feel free to contact us at 866.Macomb1 or visit www.macomb.edu/transfer.

Central Michigan University, Michigan’s fourth-largest state university, founded in 1892, offers several undergraduate and graduate programs at the Macomb University Center.

Programs Offered

**Bachelor's Degrees**
- Bachelor of Applied Arts in Administration with a concentration in Organizational or Industrial Administration
- Bachelor of Science in Administration with a concentration in Organizational or Industrial Administration
- Bachelor of Science in Community Development with a concentration in Public Administration, Health Sciences or Community Services

**Master's Degrees**
- Master of Arts in Education with a Concentration in Community College (Coming in 2020)
- Master of Science in Administration: Integrated Homeland Security
- Master of Science in Administration with a concentration in General Administration, Health Services, Human Resources, Information Resource Management, Public Administration, International Administration or Leadership

Admission

There are three convenient ways to apply for admission:
1. Apply online (pay by credit card or electronic check draft)
2. Download and print an application (pay by mail)
3. Request information and application to be mailed
   - Information Packet Request
   - Call 877.268.4636

You must be admitted to the university before you can begin taking classes. A $50 nonrefundable application fee is required in order to complete the application process. The application fee can either be paid online with a credit card or electronic draft, or by mailing a check or money order to the center to which you are applying.

CMU must have one official transcript from each of the institutions you’ve attended.

Registration

Complete priority registration information is available at https://www.cmich.edu/global/registration/Pages/default.aspx.

Tuition and Payment Information

Visit https://www.cmich.edu/global/finances/Pages/default.aspx for current tuition rates, fees and payment options.

Refund Policy

For students to receive a 100% refund they MUST drop the course prior to the start date. A $50 fee will be assessed and refunds will be prorated after the second class meeting. For more information, visit https://www.cmich.edu/global/courses/Pages/drop-withdraw.aspx.

Textbooks

MBS Direct is CMU Global Campus’ preferred bookstore partner. Access the following website for additional information https://www.cmich.edu/global/students//Pages/mbs-direct.aspx

Mission: We are here for you, literally. Our job is to help incoming students get past the paperwork, navigate everything that’s new and put a plan in place. It can seem overwhelming to you, but it’s what we do every day. So hand over your stress and we’ll work together to make sure you have an amazing experience as a new Davenport University student!

Are you ready to get where the world is going?

Programs Offered

Bachelor’s Degrees
- Bachelor of Business Administration in Accounting Fraud Investigation
- Bachelor of Science in Health Information Management (Completion Program)
- Bachelor of Science in Medical Case Management
- Bachelor of Science in Nursing (Completion Program)
- Bachelor of Science in Technology Project Management

Master’s Degrees
- Master of Science in Technology Management

Admissions to Davenport University
1. Submit an official application, plus a $25 non-refundable application fee at www.davenport.edu/apply.
2. Provide official transcripts (one of the following):
   a. College transcript showing successful completion of transferable college-level math and English
   b. Official high school transcript documenting the date of graduation from a regionally accredited high school
   c. Official GED scores
3. Qualifying test scores (one of the following):
   a. Qualifying ACT or SAT score or
   b. Qualifying Accuplacer score

Submit official transcripts to:
Davenport University, Registrar’s Office
6191 Kraft Ave SE, Grand Rapids, MI 49512

University Admissions reviews all applications on a rolling basis. The applicant’s official transcripts, test scores, involvement, and program will be considered in the admissions decision.

Transferability — Davenport is Where You Want to Be!

Why not finish your bachelor’s degree close to home, with us? You’ll get a cutting-edge education and be prepared to excel. Bring on your best future with Davenport.

Because we concentrate on transfer students, we know what you need: courses that relate to the current job market; instructors who are working in the real world and know what you need; flexible schedules with day, evening and online classes. With Davenport, you can earn your degree — on your schedule.

Visit http://www.davenport.edu/office-admissions/prospective-students/transfer-students/michigan-colleges to learn more about transfer options.

Tuition, Payment Options, & Refunds

Undergrad degree program offerings are $463 per credit hour, and graduate level courses are $831 per credit hour.

Visit http://www.davenport.edu/financial-aid/how-do-i-receive-accept-aid/payment-options-bursar to learn more about arranging payment, and to view Davenport’s refund policy.

MSU is dedicated to addressing the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family.

**Doctor of Osteopathic Medicine—MSU**

The MSU College of Osteopathic Medicine is dedicated to addressing the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family. While the educational program of the MSU College of Osteopathic Medicine is geared primarily to the training of primary medicine physicians, the curriculum and educational programs are designed to meet the continuing need for medical specialists and teacher investigators.

Traditionally, osteopathic education seeks to prepare physicians who are especially concerned with maintaining continuing personal relationships with patients, their families, and their optimum interaction with the community environmental patterns. This emphasis is reflected in our curriculum and particularly reinforced during clinical clerkship rotations through a variety of clinical disciplines in both hospital and non-hospital settings. For more information see http://www.com.msu.edu.

**Michigan State University College of Osteopathic Medicine—MSUCOM**

As of July 2009, the Michigan State University College of Osteopathic Medicine have been conducting courses at three sites: East Lansing, Detroit, and at the MSU Macomb University Center.

**Admission**

Admission to MSUCOM requires competitive undergraduate science grade point average, MCAT, clinical experience including physician shadowing as well as evidence of volunteerism and other requirements. Virtually all applicants hold at least a bachelor's degree. Pre-admissions counseling is highly recommended.

For full up to-date information see http://www.com.msu.edu/admissions/

MSU College of Osteopathic Medicine courses are only available to students who are enrolled at MSUCOM.

**Program**

- Doctor of Osteopathic Medicine (D.O.)

At Northwood University, we believe the best investment is the one you make in yourself.

In today’s fast-paced business world, earning a degree from a regionally accredited university is essential. You work, organize, and lead, not only in business but personally as well. Northwood’s Adult Degree Program provides the flexibility you need to succeed in your educational goals. Our specialized business degree programs allow you to combine evening, weekend, and online courses to fit your schedule. Classes begin every 8 weeks.

Programs Offered
Bachelor’s Degrees
- Bachelor of Business Administration in Automotive Marketing & Management
- Bachelor of Business Administration in Entertainment, Sport & Promotion Management
- Bachelor of Business Administration in Entrepreneurship
- Bachelor of Business Administration in International Business

Admission
Admission applications can be completed online at https://apply.northwood.edu (it’s free to apply!). Official transcripts and a resume will also be reviewed before an admission decision is made.

Registration
Students can register for classes using WebAdvisor. Login information will be sent to students once they have been accepted. The Program Center Manager can also assist students with first-time registration.

Tuition and Payment Information
Tuition for Northwood’s Adult Degree Program is $455 per credit hour ($1,365 per course). Tuition is due in full one week prior to the first day of class.

Refund Policy
Please visit http://www.northwood.edu/academics/adp/admissions/business-office.

Textbooks
Students will have to check their syllabus for on-ground and online courses (available 30 days prior to start date) for a listing of required textbooks. Students may purchase textbooks online from MBS Online Bookstore, accessible using their My.Northwood login credentials.

Transferability
Northwood University’s agreement with Macomb Community College allows up to 92 credits to transfer, which helps keep tuition costs down. Students utilizing financial aid may also take advantage of the Consortium Agreement between Macomb and Northwood, which allows concurrent enrollment so students can work on earning an associate and bachelor’s degree at the same time. Students not utilizing financial aid are also able to take advantage of concurrent enrollment to complete a degree quicker.

Rochester University prepares students for professional and personal success as they serve in God’s world.

(Rochester University’s main campus is located in Rochester Hills—approximately a 20-minute drive from the University Center.)

Rochester University grants bachelor’s degrees in a diverse array of academic areas and attracts students who seek to develop themselves as scholars and leaders. Rochester University is committed to a personalized learning experience, where instructors know you by name and take personal interest in your success. Rochester University offers degree programs delivered in convenient evening and online accelerated programs. Classes meet once a week for eight weeks, allowing students who have finished their foundation credits to complete their degree in as little as 16 months.

Programs Offered

Bachelor's Degrees
• Bachelor of Science in Early Childhood Studies
• Bachelor of Science in Mass Communication
• Bachelor of Science in Psychology
• Bachelor of Science in Strategic Leadership

Admission
Apply online for free at https://www.rc.edu/apply, and select the Accelerated Learning Application.

Students must have transcripts from all institutions attended sent to Rochester University.

Registration
Full-year registration is available, and your admissions advisor will partner with you to ensure that your schedule meets your needs.

Tuition and Payment Information
Complete information can be found at http://rc.edu/admissions/affording-your-education/

Refund Policy
Complete information can be found at rc.edu/catalog.

Textbooks
In partnership with MBS Direct, the largest online college bookstore system in the nation, the Rochester University Campus Store coordinates the sale of the textbooks through an online system. Go to the following website for more information: https://estudent.rc.edu.

Academic Calendar

Rochester University uses a full-year registration model in which you can register for all terms in the upcoming school year at one time.

Fall 2019
Registration begins . . . . . . . . . . . . . . . . . . . . . May 2019
Registration ends . . . . . . . . . Aug. 16, 2019 at noon
Classes begin . . . . . . . . . . . . . . . . Aug. 24, 2019
Classes end . . . . . . . . . . . . . . Dec. 13, 2019

Spring 2020
Registration begins . . . . . . . . . . . . . . . . . . . . . May 2019
Registration ends . . . . . . . . . Jan. 3, 2020 at noon
Classes begin . . . . . . . . . . . . . . Jan. 11, 2020
Classes end . . . . . . . . . . . . . . May 1, 2020

Summer 2020
Registration begins . . . . . . . . . . . . . . . . . . . . . May 2019
Registration ends . . . . . . . . . Apr. 24, 2020 at noon
Classes begin . . . . . . . . . . . . . . May 2, 2020
Classes end . . . . . . . . . . . . . . Aug. 21, 2020

This tradition dates back to the formation of the two Detroit institutions: the University of Detroit, founded in 1877 by the Society of Jesus (Jesuits); and Mercy College of Detroit, founded in 1941 by the Religious Sisters of Mercy. In 1990, these schools consolidated to become University of Detroit Mercy—a university dedicated to providing affordable, accessible, quality education, while meeting the career preparation needs of a diverse student population.

Programs Offered

Bachelor's Degrees
- Bachelor of Science in Health Services Administration

Master's Degrees
- Master of Science in Health Services Administration

Admission
Please complete a free application online at www.udmercy.edu/apply. The application fee is waived.

Registration
Complete information on class schedules, payment methods and registration procedures is available at www.udmercy.edu. New students must see their academic advisor prior to registration.

Tuition and Payment Information
Information regarding UDM's tuition and fees may be found at http://www.udmercy.edu/apply/financial_aid/index.php. For the discounted cost of University Center programs, please call 586.263.6232.

Refund Policy
Complete information about UDM's refund policy may be found at http://www.udmercy.edu/sao/refunds/index.htm.

Textbooks
Students may purchase textbooks online at http://www.textbooks.com or http://www.amazon.com.

Walsh is one of the region’s largest business schools and Michigan’s third largest graduate business school, offering bachelor’s and master’s business and technology degrees and business certificates in accounting, finance, information technology, management, marketing, taxation, and other fields.

Our nationally ranked programs integrate theory and application to prepare graduates for successful careers. Walsh degree programs include accounting, finance, information technology, management, marketing, taxation, and other fields. Classes are taught by academic faculty with real-world experience, giving you the knowledge and skills to succeed in a global market. For maximum flexibility, courses may be taken online, on-ground at one of our convenient locations, or in our innovative hybrid format. Some programs can even be completed entirely online. Whether you attend online or on-ground, you will receive personal attention in small class settings. Year-round registration lets you plan your entire academic year in advance.

Programs Offered

Bachelor's Degrees
- Bachelor of Accountancy
- Bachelor of Business Administration in Finance
- Bachelor of Business Administration in General Business
- Bachelor of Business Administration in Management
- Bachelor of Business Administration in Marketing

Master's Degrees
- Master of Business Administration

Admissions and Transfer Information

Apply online at www.walshcollege.edu/applynow. Appointments are available to meet with a Walsh Admissions and Academic Advisor at all campus locations including the Macomb University Center. For complete information about admission requirements, policies and degree programs, view the catalog online at www.walshcollege.edu/catalog or visit www.walshcollege.edu/FutureStudents.

At the bachelor degree level, everyone transfers to Walsh. We offer only junior and senior level coursework leading to a bachelor’s degree. And unlike most business schools, Walsh allows you to transfer up to 91 semester credit hours. Walsh offers concurrent enrollment once you meet admission requirements. This is a great way to get started at Walsh while maximizing the transferability of your credits. The Walsh Now program (concurrent enrollment) also offers more flexibility in scheduling – you can choose between courses available at your community college and those at Walsh each semester. Read more at www.walshcollege.edu/transfercollegecredit.

Registration

Walsh offers four semesters per year and year round registration. Register early to reserve your classes. www.walshcollege.edu/student-services

Tuition and Fees Information

Please visit www.walshcollege.edu/businessoffice for updated tuition and fee information.

Walsh is accredited by the Higher Learning Commission (HLC) www.hlcommission.org, and has received a specialized accreditation for its business degree programs by the Accreditation Council for Business Schools and Programs (ACBSP) www.acbsp.org.
Wayne State University (WSU) is a leading urban research institution and has been a symbol of excellence in higher education for 150 years.

The individual schools and colleges of Wayne State offer undergraduate and graduate degrees in more than 340 academic areas, including several at the Macomb University Center.

**Programs Offered**

**Undergraduate:**
- Bachelor of Arts in Business Administration with a major in Global Supply Chain Management (Offered at ATEC/South Campus)*
- Bachelor of Arts in Nutrition and Food Science
- Bachelor of Arts in Public Relations
- Bachelor of Science with a major in Computer Science (Offered at ATEC/South Campus)*
- Bachelor of Arts/Science in Elementary Education with a major in Integrated Science or Mathematics
- Bachelor of Social Work
- Bachelor of Science in Construction Management Technology (Offered at ATEC/South Campus)*
- Bachelor of Science in Electrical/Electronic Engineering Technology (Offered at ATEC/South Campus)*
- Bachelor of Science in Mechanical Engineering (Offered at ATEC/South Campus)*

**Graduate:**
- Master of Social Work

* Classes are held at the WSU Advanced Technology Education Center, 14601 E. 12 Mile Road in Warren.

**Admission**

Applications for admission to WSU are available online at apply.wayne.edu.

**Wayne Advantage-Macomb**

Wayne Advantage-Macomb allows you to seamlessly move between Macomb Community College and Wayne State, preparing you to pursue a bachelor’s degree while completing your associate degree at Macomb. As a Wayne Advantage-Macomb student, you can concurrently enroll at WSU and MCC, giving you a head start on your bachelor’s while you save money, familiarize yourself with Wayne State and meet with faculty and advisors who can help you make a smooth transition between both institutions.

When you enroll in Wayne Advantage-Macomb, you’re officially admitted to Wayne State, which means you can take courses at MCC, WSU or both institutions in the same semester.

Wayne State offers hundreds of courses at a variety of times and locations, including several at WSU extension centers in Warren and Clinton Township—within walking distance of MCC’s South and Center campuses. Financial aid is also available for qualified students enrolled at either institution.

**Benefits**
- Schedule coordinated academic advising from both institutions in your program of interest.
- Receive support for academic and career success from both institutions, including tutoring, workshops, job opportunities and professional planning.
- Access the Macomb and WSU library systems for research and course preparation
- Enroll in Study Abroad programs
- Join academic Learning Communities
- Participate in WSU events and student organizations
- Use your WSU OneCard for everything from paying for parking and printing to purchasing a meal.
- Live on the WSU campus.

Note: Some benefits only available if you are currently enrolled in WSU classes. To learn more and apply, visit go.wayne.edu/wayne-advantage.

**Registration**

Review course offerings at classschedule.wayne.edu.

**Tuition and Payment Information**

Please visit wayne.edu/tuition.

**Textbooks**

Western Michigan University is learner-centered, discovery-driven and globally engaged, offering regional and online undergraduate and graduate programs.

Western Michigan University is a national research university enrolling nearly 25,000 students from across the United States and more than 100 other countries. Founded in 1903, it is a learner-centered, discovery-driven and globally engaged public university that stands out among America’s more than 5,000 higher education institutions.

WMU-Clinton Township is one of six regional locations supported by WMU’s Extended University Programs department. Western Michigan University offers many of its academic programs at its regional locations and online, extending its reach and influence beyond its main campus in Kalamazoo. WMU-Clinton Township offers classes in a flexible format, ideal for working adults and contemporary students.

Programs Offered
Master’s Degree
- Master of Arts in Psychology-Behavior Analysis

Admission
Contact Kristin Hrynczuk at 586.226.4838 for information about WMU’s application process.

Registration
Once accepted, students will receive an email with their Bronco NetID and password. To register for classes, visit gowmu.wmich.edu. Call the Office of the Registrar with any questions at 269.387.4300.

Tuition and Payment Information
Tuition and fees at Western Michigan University’s regional locations differs from those on its main campus. For complete information, including information about financial aid and scholarships, visit wmich.edu/extended/tuition or call Extended University Programs at 586.226.4838.

Refund Policy
The university grants refunds for students who withdraw or reduce their credit hour load within specified time frames. For more information, visit wmich.edu/registrar/calendars/academic. Call the Office of the Registrar with any questions at 269.387.4300.

Textbooks
Textbooks can be purchased online at Follett’s WMU Bookstore website, www.wmich.bkstr.com.

A transfer plan for each of the bachelor's degree programs may be found at www.macomb.edu
Bachelor's Degrees

Bachelor of Arts in Communication—OU
Communication is a liberal arts major designed to engage students in creating a voice for influencing our social world. The program is student-centered with small class sizes and active interaction between students and professors. The Communication Program offers a range of courses emphasizing the combination of theory and practice to help students cultivate knowledge and hands-on experience that will assist them in a range of professional endeavors.

The career opportunities for communication graduates are impressive. Our students find employment in areas such as television broadcasting, radio production and broadcasting, public relations, advertising, nonprofit management, social media marketing, event planning, speech writing, governmental relations, and employment services, and many other occupations.

Bachelor of Integrative Studies—OU
The Bachelor of Integrative Studies (BIS) degree is a university-wide degree program that enables students to custom design their own plan of study. The BIS degree integrates coursework from multiple disciplines to prepare students for academic and professional goals in a world that increasingly bridges academic disciplines.

The program weaves flexibility and decision making into an opportunity for students to achieve unique personal and career goals. Students in the program have clearly identified educational goals and academic needs that can be achieved better through the BIS degree than through a traditional major.

Bachelor of Science in Mass Communication—RU
The Bachelor of Science in Mass Communication degree completion program provides you with a unique educational opportunity through a partnership between Rochester University and Macomb Community College.

The program incorporates training in Macomb’s AAS Media and Communication Arts Program with in-depth explorations of theory and scholarship in media at Rochester University.

The curriculum is designed to help you expand your understanding of communication and develop essential skills needed to succeed and advance within the media industry. Students interested in Mass Communications with a track in Media and Communication Arts must have completed a minimum of 50 credit hours from Macomb’s Media and Communication Arts (MACA) Program. Visit www.macomb.edu for more information on the MACA program at Macomb Community College.

Bachelor of Arts in Public Relations—WSU
Public relations is an exciting and challenging field that demands individuals with excellent communication skills. Most public relations classes are taught by faculty who have professional experience in addition to their academic training. The practical applications of ethics are carefully considered. The program pays special attention to effective written and oral communication as well as developing a fundamental understanding of human communication and research methods. For complete course requirements, please refer to the College of Fine and Performing Arts website at www.cfpca.wayne.edu.
**BUSINESS**

**Bachelor's Degrees**

**Bachelor of Accountancy—Walsh**
Walsh is a nationally recognized leader in accounting education. That's why you'll find our graduates in nearly every Fortune 500 company in Michigan. A Walsh Bachelor of Accountancy (BAC) equips you to think analytically, solve problems efficiently, and communicate effectively. Our graduates go on to earn their certifications as CPAs, CMAs, or business accountants. Our Certified Public Accounting (CPA) concentration provides the skills and knowledge needed to sit for the CPA exams, and our students have the highest CPA exam pass rate in metro Detroit. Our Certified Management Accountant (CMA) concentration prepares students for the CMA designation. Walsh is among 6 schools in Michigan to be endorsed by the Institute of Management Accountants. [https://www.walshcollege.edu/bachelors-ba-degree-accountancy](https://www.walshcollege.edu/bachelors-ba-degree-accountancy)

**Bachelor of Business Administration—Accounting Fraud Investigation—DU**
This program combines the development of technical skills in accounting, computer security, and legal investigation that are needed in fraud examination. Students learn accounting principles, information systems, and auditing practices required to establish internal controls for fraud prevention. In addition, students gain knowledge of network security and develop technological abilities in fraud detection. Interlacing the coursework in auditing and security is an introduction to the principles, methods, and techniques used in conducting criminal investigations, which brings the fraud examination full circle. This program also prepares students with the soft skills of communications, teamwork and leadership needed by the fraud examiner profession.

**Bachelor of Business Administration (BBA)—Walsh**
This degree familiarizes students with all aspects of business while allowing the student to major in the area that most interests them. Read more at [https://www.walshcollege.edu/bachelors-degree-programs](https://www.walshcollege.edu/bachelors-degree-programs). The following are the majors students may pursue.

**Finance:** The Walsh Bachelor of Business Administration in Finance (BBA-FIN) combines academic rigor and practical skill development based on real-world insights to prepare you for a successful career. Coursework includes: accounting, business strategy, communications, economics, finance, information technology, and market analysis. Our state-of-the-art finance lab provides hands-on learning experiences to prepare students with skills employers are looking for in the financial job market. As a Walsh student, you can also take advantage of free training and certification in Bloomberg analytical software. **Bachelor of Applied Arts in Administration—CMU**
Like the BS degree, the BAA works well for students working in administrative careers in the public, nonprofit and private sectors. The core courses provide a foundation in administrative competencies that are common to most supervisory positions, and the concentrations allow you to focus on an area of particular interest. The BAA allows you to take maximum advantage of licensure or other credentials you have already earned in your field. Appropriate coursework and experience can be transferred into the program to meet requirements for one of several minors such as: Economics, Industrial Technology, Leadership, Public Administration and Psychology. Graduates of this program are prepared for mid-level administrative positions in industry, hospitality, health care and related fields.

**Bachelor of Science in Administration (BSA)—CMU**
This degree program is primarily focused on the needs of students pursuing administrative careers in the private sector. The administrative core courses provide a foundation in managerial competencies that are common to most administrative positions, and the concentrations allow you to focus on an area of particular interest. Graduates of this program are prepared for careers as production managers, human resources administrators, small business owners, and other mid-level managerial positions.

This program is an excellent choice for students with a specialized associate degree, such as business construction technology, legal assistance, and others. It is also great for students with an associate degree in business who would like to add technical or specialized training to their credentials.
Bachelor of Business Administration in Automotive Marketing & Management—NU
This program provides the student with a well-rounded education in management for the automotive industry. This degree is well-suited to individuals who are looking to advance into management or leadership careers. The Automotive Marketing and Management program is designed to integrate a foundation of business education and expertise that prepares graduates for a variety of automotive industry careers. Northwood is the only university that specifically prepares students for this expansive industry. The bachelor’s degree in Automotive Marketing and Management focuses on the various aspects of the automotive marketing function including dealership advertising, finance and insurance, budgeting and forecasting, parts and service and used car management.

Bachelor of Arts in Business Administration with a major in Global Supply Chain Management—WSU
Every successful organization owes a portion of its success to effective supply chain management and logistics. These processes focus on the production and distribution of goods and services. The market in which organizations compete has become increasingly global as they work with nondomestic suppliers, outsource business functions, and market goods and services to consumers around the world. Business leaders realize that a sustainable approach to managing global supply chains plays a significant role in achieving success. They need well-qualified supply chain professionals to meet the challenges and recognize opportunities. www.business.wayne.edu.

Bachelor of Science in Business Administration—FSU
The major in Business Administration is designed to prepare students for the rapidly changing nature of the work environment in business, government, and other nonprofit organizations. The program is designed to equip graduates not only for entry-level positions, but also for advancement as well. Building upon a core of business courses, the program features a tight sequence of major courses; however, the program also provides the flexibility to specialize in an area of interest for the student. The goals of this program are: to provide students a broad-based business education that will widen the field of start-up positions open to them upon graduation, to provide a solid undergraduate curriculum for those who intend to go to graduate school, and, finally, to establish a foundation for long-term career flexibility in a fast-paced and ever-changing competitive world. To these ends, the Business Administration Degree Program incorporates a combination of core business courses and application-oriented courses, concentrations that allow students to pursue specific areas of interest, internship opportunities, active student engagement opportunities, and faculty with real-world experience.

Bachelor of Science in Business Administration—Professional Track—FSU
This program will prepare you for the rapidly changing nature of the work environment in business, government and other nonprofit organizations and equip you with the skills you need for entry-level positions as well as advancement. Building upon a core of business courses, the program features a tight sequence of major courses; however, the program also provides the flexibility to specialize in an area of business administration for the student. Students with associate degrees in technical fields will find the program attractive for building a solid knowledge of business and management upon their technical expertise. The major is also valuable as preparation for law school, as well as for graduate studies in business.

Bachelor of Business Administration in Entertainment, Sport & Promotion Management—NU
This program provides the student with a well-rounded education in the national and global expansion of entertainment and sports and its impact on cultural, social and economic issues at regional, national and international levels. The focus of the ESPM program is to educate and train students for the business and management aspects of the entertainment and sports industries. Coursework emphasizes a broad understanding of the business side of entertainment and leisure activities in America, including sports sociology, communication, the food and beverage industry, sports governance, the industry legal aspects, club, resort and facilities management, and ethics.

Bachelor of Business Administration in Entrepreneurship—NU
This program provides the student with a well-rounded education in business enterprise models and entrepreneurial bases. By combining a rigorous academic curriculum, leadership development, experiential learning and relationships with industry leaders, graduates prepare to become tomorrow’s entrepreneurs. Northwood University was founded on the principle that America’s free enterprise system, together with an entrepreneurial spirit, can create a bigger pie for all to share. We believe the entrepreneurial spirit can and should be taught to all generations, as it is the foundation of a free society. Within a few years after graduation, 25% of Northwood University graduates become business owners.

Bachelor of Science in Hospitality and Tourism Management—MU
This program addresses the emerging importance of the hotel, restaurant, and tourism industries, by preparing students for management careers in the hospitality field. As part of Madonna’s program, students complete an internship or cooperative education experience with a hospitality employer.
Coursework relates to all the aspects of the industry: food service, lodging and resort operations, tourism, and conference and event planning.
GMAT or GRE entrance examinations are not required. If and competencies needed for a particular professional field. This degree is a 36-semester-hour degree program that establishes a foundation for future graduate work and professional advancement. This program may be applied across a variety of disciplines and industries. The program is designed to provide students a broad-based work and professional advancement. This program may be applied across a variety of disciplines and industries. The program is designed to provide students a broad-based

Bachelor of Science in Medical Case Management—DU

This degree program is designed to prepare the individual who is interested in entering or advancing in the area of medical case management. The student will learn case management concepts such as assessing, planning, implementing, coordinating, monitoring, and evaluating the care of a client across the continuum of care. The program provides the student with knowledge of health care management and delivery, principles of case management practice, knowledge of health care reimbursement, psychosocial aspects of clients and rehabilitation. Graduates of the Program are eligible to sit for Certified Case Manager certification examination (without a higher degree or professional license) administered by the Commission for Case Manager Certification (CCMC) upon completing the required fieldwork experience.

Potential employment for medical case managers as a Care Manager, Care Coordinator, Community Outreach Specialist, Transitional Coach, and Case Manager (non-RN) work for health and human services organizations, insurance providers, integrated health care systems, physicians’ practices, rehabilitation agencies, government agencies, attorneys practicing in worker compensation and personal injury, disability network organizations or as an independent consultant.

Bachelor of Science in Strategic Leadership—RU

This program integrates management and leadership courses to provide a comprehensive perspective of leadership that may be applied across a variety of disciplines and industries. The program is designed to provide students a broad-based degree that establishes a foundation for future graduate work and professional advancement. This program may be completed in as little as 12 months.

Master’s Degrees

Master of Science in Administration (MSA)—CMU

This degree is a 36-semester-hour degree program that provides the knowledge and skills required for administrators and supervisors to function more effectively in a wide variety of administrative settings, plus the specialized processes and competencies needed for a particular professional field. GMAT or GRE entrance examinations are not required. If you are interested in upgrading your credentials, but not sure that you want to earn a complete master's degree, you can opt for a graduate certificate from CMU. Each of the MSA concentrations is available as a graduate certificate and include General Administration, Health Services Administration, Human Resources Administration, Information Resource Management, International Administration, Leadership, and Public Administration. You can apply credits earned in the certificate program to the MSA degree if the concentration is the same.

Master of Science in Administration: Integrated Homeland Security—CMU

Homeland security leaders must be skilled not only in response and recovery but also in prevention and preparedness. This degree covers all aspects of crisis management with a solid foundation in administrative practices, strategic planning and human behavior, plus concentration courses dedicated to national and global homeland security in the public and private sectors.

This degree teaches you the skills you need for leadership in emergency management and homeland security in:

- Federal, state, county and local government
- All branches of the military
- Crisis communication
- Corporate and nonprofit risk management
- Law enforcement
- Fire departments
- Nonprofit response organizations at local to global levels

Master of Business Administration (MBA)—Walsh

The Walsh Master of Business Administration (MBA) degree program will enhance a student’s ability to incorporate opportunistic decision-making and systematic approaches in solving complex problems. Students will develop a framework of how to think and make decisions in today’s fast-paced, business environment. Courses in the Walsh MBA program are taught by proven business leaders who are experienced practitioners in their fields – this bridges the gap between real-world practices and classroom experience.

The Walsh MBA prepares graduates for positions in mid- to upper-management by providing a broad, general education in major areas of business study. The MBA program encompasses the study of accounting, finance, management, information technology, economics, strategy, and related disciplines. It also encompasses business communication skills now demanded by employers, helping graduates explain concepts and share knowledge more concisely.

The Walsh MBA consists of 10 courses for 42 credits. Students looking to combine the breadth and prestige of the MBA with the specialization of a Master of Science (MS) degree can choose from one of four dual-degree options. Students earn two distinct master degrees by completing an additional four to six courses. The dual-degree options are Dual MBA/MS in Finance, Dual MBA/MS in Information Technology Leadership, Dual MBA/MS in Management, and Dual MBA/MS in Marketing. Read more at www.walshcollege.edu/mba.
EDUCATION

Bachelor’s Degrees

Bachelor of Science in Early Childhood Studies—RU
The Early Childhood Studies degree-completion program is for individuals who are currently employed in the early childhood field (Head Start, preschools, daycares, etc.) and is designed to help prepare you for leadership roles. The curriculum focuses on the growth and development of young children, the influence of family dynamics, and education patterns of young children. Leadership, reporting, and legal issues are also explored. This program does not qualify for state teacher certification.

Bachelor of Science in Elementary Education—OU
The Bachelor of Science in Elementary Education program prepares high quality teachers for the schools in the state of Michigan and throughout the country. Students completing this program concurrently earn a Bachelor of Science degree and recommendation for a Michigan provisional certificate in elementary education. Graduates of the program are also eligible for grades K-5 and K-8 in self-contained classrooms in one or more of the following areas: language arts, mathematics, integrated science, and social studies. Students who hold a bachelor's degree can pursue the program as second degree undergraduates.

The Teacher Education Accreditation Council (TEAC) approves the Teacher Development and Educational Studies (TDES) undergraduate elementary education program, and our graduates are recognized throughout the state for the quality of the preparation they receive at Oakland University.

The professional portion of the OU Elementary Education program is offered in its entirety at the Macomb University Center in a cohort format.

Master’s Degrees

Master of Arts in Education with a Concentration in Community College (Coming in 2020)—CMU
The Master of Arts degree in Education is designed to provide knowledge and skills for individuals required to function effectively in various positions of educational leadership. This is not a certification program for educators, as it presumes the individual is already trained and qualified in the technical aspects of her or his field. Students strengthen their curriculum and writing skills, integrate technology in their classrooms, evaluate and measure program relevance and effectiveness, and explore research and teaching methods.

Master of Education in Educational Leadership (Accelerated Weekend Format)—OU
The M.Ed. in Educational Leadership is designed to prepare “practice-ready” leaders for 21st century schools. With the guidance of expert faculty and supported by a summer internship, students develop the skills needed to lead with a clear vision, build positive relationships, support and guide school improvement, and empower others while managing the complexities of change. The accelerated, weekend format offered at the Macomb University Center in Clinton Township is designed for tenured teachers or those with four or more years’ experience and aspire to assume a variety of school leadership positions.

Education Specialist

Education Specialist in Leadership (Accelerated)—OU
The Education Specialist Degree (Ed.S.) in (K-12) Leadership is a 34-credit, cohort-structured, post-master's degree program designed for individuals who are looking to further their education and aspire to positions in education administration. The curriculum is relevant – aligning instruction with the true experience in leadership – and connects with current issues in K-12 education. Students may apply for the Administrator Certificate (Building Level). Twenty-eight credits earned in the Ed.S. program can be applied toward Oakland University's Ph.D. in Education and twenty credits can be applied to the Ed.D. in Organizational Leadership. Classes are taught with face-to-face, hybrid, and 100% online cohort modules available.

<th>Bachelor's Degrees</th>
<th>Bachelor of Science in Electrical/Electronic Engineering Technology—WSU</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor of Science in Automotive Management—FSU</td>
<td>Engineering technicians apply principles of engineering, mathematics and science to the operation or testing of engineering and manufacturing systems. An engineering technologist working in research and development often is involved in data collection or may prepare or conduct experiments. They may also participate in design work through the use of computer-aided design systems. Graduates of engineering technology and engineering programs complement each other in their skills and interests. This program is housed at the WSU Advanced Technology Education Center (ATEC) on 12 Mile Road in Warren, across from MCC South Campus. ATEC offers state-of-the-art laboratories and advanced classroom settings, and is designed to incorporate new technologies as they emerge in future years. ATEC provides an electric vehicle technologies center of excellence, where WSU and MCC faculty engage in research, development and delivery of electric and automotive battery technologies.</td>
</tr>
<tr>
<td>Bachelor of Science in Mechanical Engineering—OU</td>
<td>The field of mechanical engineering offers career opportunities in areas such as design, analysis, test development, research and the manufacturing of various products. Oakland University’s mechanical engineering program provides the student with a foundation in the fundamental concepts and principles associated with mechanics of solids, thermodynamics, fluid and thermal energy, materials, manufacturing, design of mechanical systems, electrical circuits, computer programming and software utilization. A strong laboratory experience and the utilization of computers is interwoven through the curriculum. The program also provides numerous engineering design experiences.</td>
</tr>
<tr>
<td>Bachelor of Science in Computer Science—WSU</td>
<td>A degree in computer science is a pipeline to one of the hottest career fields in today’s market. A high-quality, innovative education focusing on the fundamentals of computer science while emphasizing technology, prepares students for employment and advanced studies. Students receive guidance and can pursue research opportunities in many areas, including artificial intelligence, bio-informatics, networking and wireless networking, databases, distributed and parallel computing, security, graphics and visualization, and software engineering. A recently revised curriculum includes a high degree of hands-on experience with real-world systems, increased personal attention, undergraduate participation in research projects, and a carefully crafted progression of course content as students advance through the program. Students also can apply for Study Abroad opportunities at European schools, including the Polytechnic School of Nantes, France.</td>
</tr>
<tr>
<td>Bachelor of Science in Construction Management Technology—WSU</td>
<td>This degree program was developed collaboratively with Macomb Community College. Students with an associate of applied arts in architectural technology, construction technology or civil technology will find transferring to this program easy. This specialization includes coursework in construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses in accounting, marketing and management complement the program. Co-op and internship opportunities are available.</td>
</tr>
<tr>
<td>Bachelor of Applied Science in Industrial Technology &amp; Management—FSU</td>
<td>The Industrial Technology &amp; Management degree is designed for those involved in any one of a number of areas in manufacturing who may possess many manufacturing or business-related credits or an associate degree, and who desire a bachelor’s degree. This degree program will assist persons who want to make a career change with their current employer or a career transition to a new employer. It is designed to assist persons who desire to work in production supervision, sales engineering, production planning, quality, engineering supervision, and project management, among other positions. The Industrial Technology &amp; Management program is designed to complement previous training in a technical area in order to help individuals move into a management role in a manufacturing or related facility. The degree program is interdisciplinary, bringing components of various programs together with specialty courses that expand the knowledge base of the student in manufacturing and industrial settings. The foundation classes provide depth of knowledge applicable to any technology field with classes in automation, globalization, lean manufacturing, OSHA safety, general management, quality statistics, and industrial operations.</td>
</tr>
</tbody>
</table>
Bachelor of Science in Mechanical Engineering—WSU
Mechanical engineering is a creative discipline that draws upon a number of basic sciences to design devices, machines, processes and systems that involve mechanical work and its conversion from and into different forms of energy. The challenge of mechanical engineering may lie in the perfection and reliability of a device that will be duplicated a million-fold or in the control optimization of a single complex system of unique design.

The WSU mechanical engineering curriculum emphasizes human-centered design and the multidisciplinary nature of the curriculum, preparing students for many applied fields. Students have access to the latest research and cutting-edge technology. The hands-on learning environment stems from studying and working under the direction of recognized world experts and engaging in their pioneering research and development. Faculty members are engaged in diverse aspects of the discipline and maintain strong connections to industry, bringing a practical, professional perspective to their lectures and labs. WSU alumni are working in industry research and development; as consultants; hardware engineers; research assistants for the government; mechanical engineers; and manufacturing engineers.

This program is housed at the WSU Advanced Technology Education Center (ATEC) on 12 Mile Road in Warren, across from MCC South Campus. ATEC offers state-of-the-art laboratories and advanced classroom settings, and is designed to incorporate new technologies as they emerge in future years. ATEC provides an electric vehicle technologies center of excellence, where WSU and MCC faculty engage in research, development and delivery of electric and automotive battery technologies.

Bachelor of Science in Technology Project Management—DU
This Technology Project Management program is designed to prepare students for various management positions within the technology field. Coursework integrates accounting, finance, production, computer networking, and CIS with in-depth project management practices. Industries examined include IT, health care, construction, manufacturing, service, and government. Students have the option of refining their focus by selecting specialty concentration options in Networking, CIS, Information Security, Health Information Management, and Accounting Information Systems or creating an individualized specialty. Students also have the option of selecting the Professional Focused Technical Specialty.

Master’s Degrees

Master of Science in Technology Management—DU
Davenport’s Master of Science in Technology Management is a high quality, interdisciplinary technical and business graduate curriculum designed for today’s organizations. This program prepares graduates for a lifelong career addressing critical leadership roles in private, public or government organizations. The MS in Technology Management combines a set of business and technical competencies to give Davenport University graduates the competitive advantages needed to lead information technology departments in the global economy.

Students will apply leadership tactics, basic observational methods and logical reasoning to demonstrate best practices in problem solving with foundational knowledge in the following areas: industry regulations, network technologies, product and project management, risk mitigation, business continuity and information technology disaster recovery, total quality management, budgeting and return on investment by using appropriate tools, methods and applications. Students will also choose electives based on their career focus and complete a thesis under the direct guidance of a faculty member. The elective courses will provide an introduction to the different technical and administrative aspects of Technology Management. Topics will include: wireless networks, accounting information systems, banking and financial security, as well as leadership and change management strategies.
### Bachelor's Degrees

**Bachelor of Science in Health Information Management (Completion Program)—DU**

This program is designed for current RHIT-credentialed professionals who are seeking a bachelor's degree in Health Information Management (HIM). The purpose of the bachelor's degree HIM program at Davenport University is to prepare the graduates to advance in the HIM profession through the use of critical thinking, data analytic skills, communication, applied research, self-directed learning, leadership and management skills. This program prepares RHIT-credentialed professionals for emerging key roles in supporting the technological infrastructure for health services delivery. Graduates of this program are eligible to sit for the Registered Health Information Administrator (RHIA) exam.

**Bachelor of Science in Health Services Administration (HSA)—UDM**

This degree program is designed to educate knowledgeable, multi-skilled current and future health care leaders. The HSA program is designed to prepare individuals for entry and/or middle management or clinical supervisory positions in organizations, institutions and agencies that deliver health services. This is accomplished by providing a strong foundation in management with a depth and breadth of applications to the health care system. The program is accessible to working adults who cannot take time away from jobs and families for full-time study. Students may complete their 126-credit degree in as little as two years. Graduates hold positions such as internal auditor for Medicare Payments, supervisor of Billing and Reimbursement, director of Community Relations, Claims Adjustment supervisor, office manager, and regional manager for Clinic Services. They work for organizations such as Blue Cross and Blue Shield, Hospice of Southeastern Michigan, Trinity Health Corporate Office, HAP, Eli Lilly, Wyeth, and virtually all of the Metro Detroit hospitals.

**Bachelor of Science in Nursing (Completion Program)—DU**

This pathway is designed for currently licensed registered nurses who are seeking a bachelor’s degree in nursing. The purpose of the bachelor’s degree nursing program at Davenport University is to prepare the graduates to advance in the nursing profession through the use of critical thinking, advanced assessment skills, communication, collaborating practices, applied research, self-directed learning, leadership and management skills. This program prepares registered nurses for nursing practice of patients and their support systems across the continuum of care and in communities.

**Bachelor of Arts in Nutrition and Food Science—WSU**

This curriculum is designed for those interested in non-technical positions in the fields of nutrition and food science. These include sales, food service management, customer relations, etc. Elective courses from the business school or community colleges may be applied. Employment opportunities include school or university food service, industrial and commercial food service, hospitals, nursing homes and extended care facilities.

### Master's Degrees

**Master of Science in Health Information Management (Completion Program)—DU**

This degree program is designed for current RHIT-credentialed professionals who are seeking a master's degree in health information management. The program is designed to prepare students for entry and/or middle management or clinical supervisory positions in organizations, institutions and agencies that deliver health services. This is accomplished by providing a strong foundation in management with a depth and breadth of applications to the health care system. The program is accessible to working adults who cannot take time away from jobs and families for full-time study. Students may complete their 126-credit degree in as little as two years. Graduates hold positions such as internal auditor for Medicare Payments, supervisor of Billing and Reimbursement, director of Community Relations, Claims Adjustment supervisor, office manager, and regional manager for Clinic Services. They work for organizations such as Blue Cross and Blue Shield, Hospice of Southeastern Michigan, Trinity Health Corporate Office, HAP, Eli Lilly, Wyeth, and virtually all of the Metro Detroit hospitals.

**Bachelor of Science in Health Services Administration ( Completion Program)—DU**

This degree program is designed to educate knowledgeable, multi-skilled current and future health care leaders. The program is designed to prepare individuals for entry and/or middle management or clinical supervisory positions in organizations, institutions and agencies that deliver health services. This is accomplished by providing a strong foundation in management with a depth and breadth of applications to the health care system. The program is accessible to working adults who cannot take time away from jobs and families for full-time study. Students may complete their 126-credit degree in as little as two years. Graduates hold positions such as internal auditor for Medicare Payments, supervisor of Billing and Reimbursement, director of Community Relations, Claims Adjustment supervisor, office manager, and regional manager for Clinic Services. They work for organizations such as Blue Cross and Blue Shield, Hospice of Southeastern Michigan, Trinity Health Corporate Office, HAP, Eli Lilly, Wyeth, and virtually all of the Metro Detroit hospitals.

**Master of Science in Health Services Administration (HSA)—UDM**

This degree program is designed to educate knowledgeable, multi-skilled current and future health care leaders. The Master’s of Health Services Administration (MHSA) builds on the health-related preparation and work experience that students bring to the program and develops advanced competencies in management, research techniques and fiscal management. Courses are offered in formats designed for the working person. The MHSA program is accessible to working adults who cannot take time away from jobs and families for full-time study. Health care cases and content are fully integrated into each course and health care management texts are used along with Internet resources. The 42-credit master’s degree can be completed in five semesters by attending evening and online classes. The UDM Masters of Health Services Administration graduate program is distinct from an MBA in that it integrates management theory with specific applications to health care, including topics unique to the field, such as financial management in the context of managed care and third-party reimbursement.

### Doctoral Degree

**Doctor of Osteopathic Medicine—MSU**

The MSU College of Osteopathic Medicine is dedicated to assisting in the solution of the ever-growing public demand for physicians who can provide comprehensive and continuing health care to all members of the family. While the educational program of the MSU College of Osteopathic Medicine is geared primarily to the training of primary medicine physicians, the curriculum and educational programs are designed also to meet the continuing need for medical specialists and teacher-investigators. Traditionally, osteopathic education seeks to prepare physicians who are especially concerned with maintaining continuing personal relationships with patients, their families, and their optimum interaction with the community environmental patterns. This emphasis is reflected in the nature of the curriculum and particularly reinforced during clinical clerkship rotations through a variety of clinical disciplines in both hospital and non-hospital settings. For more information see http://www.com.msu.edu/program.
Bachelor's Degrees

Bachelor of Science in Community Development (BSCD)—CMU
This degree program is designed for people interested in working in the public sector or human services areas. Graduates are prepared for careers as city, county, state, or federal administrators; agency managers; public health professionals; community education directors; and more.

Bachelor of Science in Criminal Justice—FSU
This program gives you a general education in criminal justice, but also lets you choose to focus on specific technical skills by enrolling in clusters of courses in the areas of forensic science, communications, accounting, computer information systems, human resource management, Spanish, or social sciences. Coursework is designed to provide an understanding of criminal justice, while allowing you to obtain special work-related skills that will open opportunities in a variety of criminal justice agencies, or pursue the bachelor of science degree with the intent of pursuing further graduate or professional studies.

Bachelor of Science in Criminal Justice—MU
Criminal justice graduates often find employment in federal, state, or local branches of government, law firms, or private organizations. Employment possibilities also include homeland security (the fastest growing area in federal government), corrections and law enforcement. Madonna’s program helps prepare students for careers that involve research, criminal investigation, intelligence, probation and parole counseling, victim-witness or prisoner advocacy, consumer fraud, crime prevention, and drug enforcement.

Bachelor of Science in Emergency Management—MU
This program prepares students for careers in disaster management, homeland security, and rescue. The coursework provides students with employable skills in preparing for, mitigating, responding to, and recovering from natural, man-made and technological incidents. It empowers students to identify, integrate, and allocate resources that exist in the nonprofit, private, and public sectors with an emphasis on coordinating with those groups and all levels of governmental response agencies.

Bachelor of Science in Human Resource Development—OU
With a bachelor of science in Human Resource Development, you will be prepared for administrative and training careers in business and industry, where you can create new ways to train and support employees.
Students complete the core curriculum and have the option of choosing between four areas of emphasis by adding a minor to their degree program. Students can earn a minor in training and development, employment systems and standards, organization and career development or applied leadership skills in addition to earning their bachelor of science in HRD. These minors are also available to any student admitted to the university.

Bachelor of Science in Paralegal Studies—MU
This degree completion program allows Associate of Applied Science Legal Assistant graduates to receive a Bachelor of Science degree in Paralegal Studies from Madonna University’s American Bar Association-approved program. The focus is on legal research and the technology utilized in a modern law practice setting. Students can major in Paralegal Studies for law school.

Bachelor of Science in Psychology—RU
This degree program is designed for adults pursuing a career in a mental health field. Most students who complete this program will choose to continue on to graduate school for further training toward licensure as a psychologist, psychotherapist, professional counselor, or social worker. Although this program meets the preparatory needs of most graduate schools, students should consult the graduate school of their choice for specific requirements. The Psychology program is a unique blending of psychology and counseling courses presented from a moral viewpoint with emphasis on the Christian perspective.

Bachelor of Social Work—WSU
Education for social workers has been an integral part of this large and respected urban university for over 50 years, and WSU is proud to offer this program to students living and working at a distance from the main campus. The School of Social Work provides educational offerings at the undergraduate and graduate levels. Its programs are accredited by the Council on Social Work Education. For complete course requirements, please refer to the School of Social Work website at www.socialwork.wayne.edu.
Master’s Degrees

**Master of Arts in Clinical Mental Health Counseling—OU**
The counseling profession helps people to become self-aware, growth-oriented and effective in mastering the challenges of life. Counselors—as skilled, perceptive, broadly educated professionals—assist clients in identifying areas for improvement and in carrying out changes that promote life fulfillment. Drawing upon a foundation of research and theory in philosophy, psychology and education, counselors use therapeutic skills and consultation techniques with both individuals and groups. In any setting, the goal of counseling is to help people expand their potential, facilitate development and live more satisfying and productive lives.

In order to prepare students for this difficult task, the master’s degree programs in counseling at Oakland University set forth curricula designed to foster both personal development and the acquisition of a broad range of knowledge and skills.

**Master of Arts in Psychology—Behavior Analysis—WMU**
The behavior analysis master’s degree at Western Michigan University is one of the most established training programs for students who want to design and manage the delivery of applied behavior analysis (ABA) services for people with autism and other developmental disabilities. The program prepares students to move forward the fields of ABA practice and research as practicing behavior analysts. The course sequence is verified by the Behavior Analyst Certification Board® to meet the 4th edition education requirements and includes an approved experience. Students who successfully complete the WMU coursework and practicum requirements are eligible to sit for the exam to become a Board Certified Behavior Analyst® and, upon passing that exam, to secure their BCBA certification. The master’s program prepares students for work at the M.A. level with individuals and organizations that specialize in Autism Spectrum Disorder and Intellectual and Developmental Disabilities. Students must complete a minimum of 36 hours and earn a minimum grade of B in all coursework in order to graduate from the program. Applicants with an undergraduate major in Psychology are preferred. Other preferred experiences include coursework/readings in behavior analysis and BCBA-supervised experience implementing behavior-analytic procedures as a direct line therapist or Registered Behavior Technician™. For more information, visit wmich.edu/extended/academics/psychology-behavior-analysis/

**Master of Social Work—WSU**
Wayne State University offers students the opportunity to attend classes toward a master’s degree in Social Work at the University Center. Summer bridge courses and advanced year courses are offered for students admitted to the MSW program with Pre-Candidate Master’s (Advanced Standing) Status or who have completed the core curriculum. Please note, not all courses will be available at the University Center. For additional information regarding course offerings, please consult the WSU course schedule online at www.classschedule.wayne.edu. For complete course requirements please refer to the School of Social Work website at www.socialwork.wayne.edu.
FREQUENTLY ASKED QUESTIONS

How do I apply?
Courses offered at the University Center are third- and fourth-year and graduate level only. You must have the appropriate level of college credits—a minimum of 60 for most bachelor’s degree programs—before you’re eligible to transfer to be admitted. Completion of an undergraduate degree is the minimum requirement for admission to master’s and doctoral degree programs.

To apply to a bachelor’s degree program:
1. Enroll at Macomb Community College and later apply to transfer to the University Center partner of your choice.
2. Enroll directly at the senior institution if you’ve completed the lower-division credits.

If you’re a current Macomb student and plan to attend the University Center, contact a Macomb advisor. That way, you’ll know your community college credits will transfer.

To apply to a master’s degree or the Doctor of Osteopathic Medicine degree program:
Apply directly to the college or university offering the degree.

Can I afford it?
Each of our partner institutions sets its own tuition rate—and you may be eligible for financial aid or tuition reimbursement from your employer. You can find tuition rates by visiting www.macomb.edu/UC and then linking to the University Center partner; or, by calling the partner directly.

To apply for financial aid, a student must submit a Free Application for Federal Student Aid (FAFSA), which is available from Macomb’s Financial Aid Offices, www.macomb.edu, on the financial aid offices of the University Center partners. Each of these offices will also provide information about specific financial assistance or scholarship opportunities available through their particular institution.

How long will it take to finish?
For most programs, partner institutions schedule their courses with sufficient frequency so that students can complete their degree in two to three years. A variety of course formats are offered for some programs, including accelerated or online class options. Some students opt for one course each semester. Others hop on the fast track and take more than one course a term. The University Center’s programs provide the flexibility you need to fit your schedule.

How do I register for classes?
You can register on site or in most cases online or by phone or mail. See the University Center Schedule of Classes for each institution’s registration calendar.

Where can I find more answers?
We’re happy to answer your questions—in person, on the phone, or online. For more information about the University Center, its programs, and admission and enrollment procedures, call the college or university, or Macomb’s Information Center toll free at 866.Macomb1. Visit us online at www.macomb.edu/UC.
