

## *Carpenter Certificate*

(Building Construction Technology – Associate of Applied Science Degree Path)

This certificate program is designed to equip students with the basic carpentry skills necessary to enter the construction industry. Through a blend of classroom theory and hands-on experience, students will be introduced to hand tools, power tools and other equipment commonly used in the industry. Lumber, concrete, and a variety of other materials and hardware, as well as math, blueprint reading, and cost estimation techniques will also be covered.

This certificate program is designed to prepare students for success in careers in the building construction industry, one of the largest industries in the United States today. The skills of a well-trained carpenter are in high demand. This program is well-suited for individuals who enjoy working with their hands in both indoor and outdoor environments. Those who graduate with this certificate are well-rounded in reading and interpreting construction drawings, selecting and utilizing the appropriate building materials, and using hand tools and power tools, both independently and in a team environment.

A certificate will be awarded to students who successfully complete the following courses:

In cases where prior training or education is documented, specific courses may be substituted for one or more of the above courses as conditions warrant. Suggested alternate courses, which may also be used as electives toward an associate degree, are listed below for consideration. Contact the Applied Technology and Apprenticeship department for details.

### Suggested Alternative/Elective Courses:

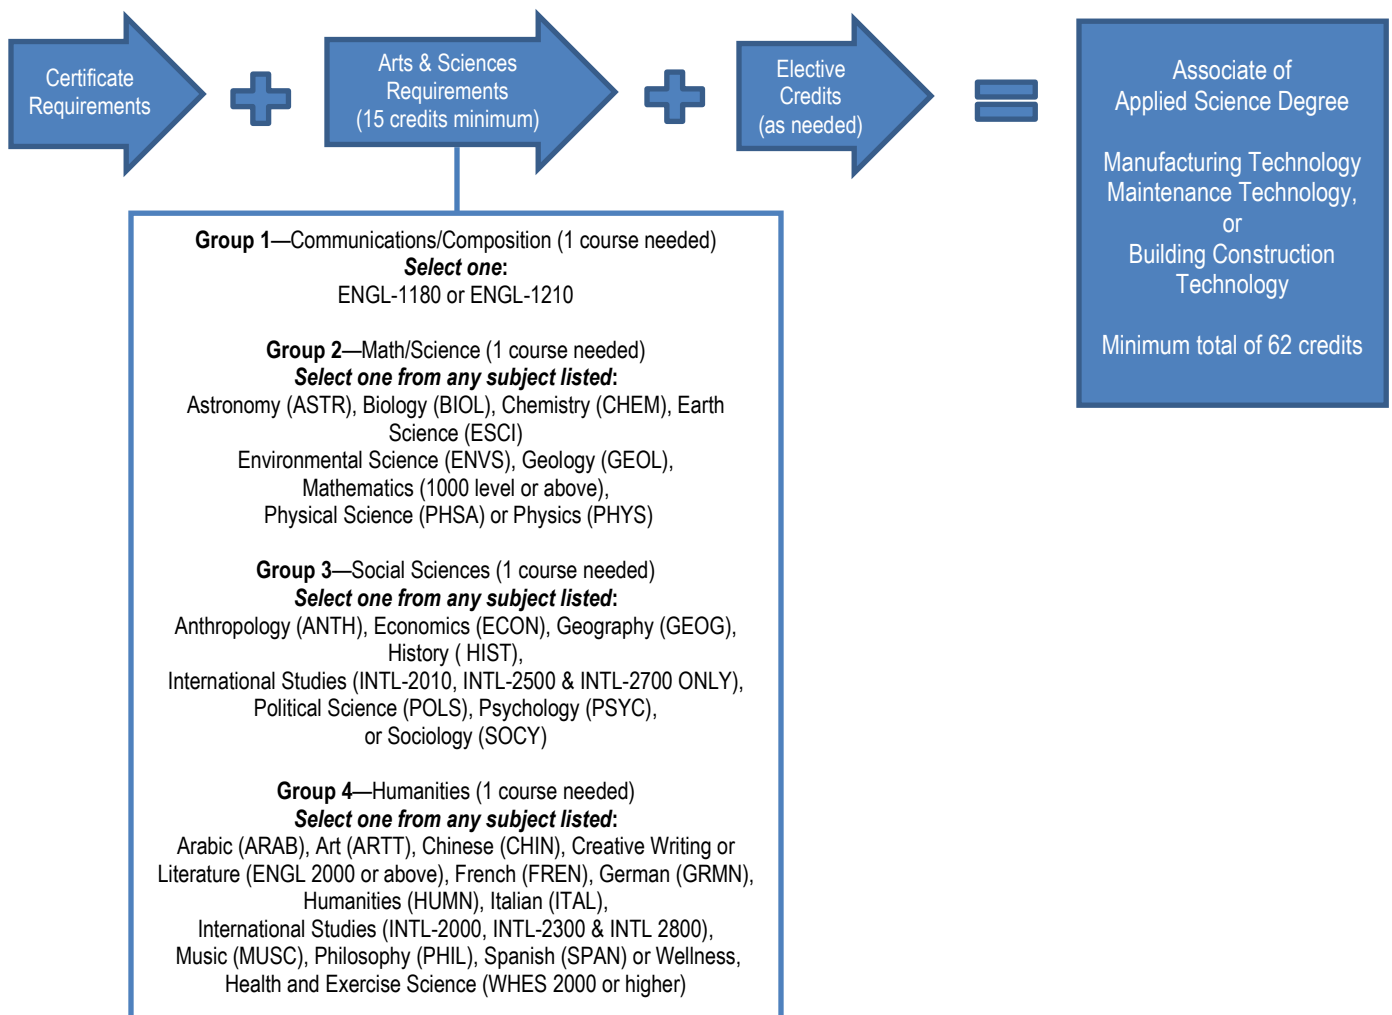

ATMT 1660	Millwright Theory II	ATTR 1600	Industrial Safety - Skilled Trades
CNST 1030	Sustainable Building Design & Construction	ATTR 1150	Technical Report Writing

**SEE SECOND PAGE/REVERSE SIDE FOR ASSOCIATE DEGREE REQUIREMENTS**

## Associate of Applied Science Degree Requirements (Minimum 62 credit hours)

An Associate of Applied Science Degree is offered for those enrolled in or completing an Apprenticeship, Employee-In-Training, or General Certificate Program. Other college requirements apply, including the completion of the arts and sciences (general education) requirements as well as attaining a minimum overall total of 62 credit hours. See Apprentice Coordinator or Advisor for details.

Students may graduate with an Associate of Applied Science Degree in Manufacturing Technology, Maintenance Technology or Building Construction Technology, depending on the Apprenticeship, Employee-In-Training or General Certificate Program area of specialty.
