

Health and Public Service Selective Admission Program

FREE Informational Sessions

Choosing a career in health care and finding the best college pathway may seem confusing. But join one of our sessions and learn about some of the unique health care programs Macomb Community College provides and what a “day in the life” will be like if you’re working in the field.

Our goal is to help you gain clarity and confidence about your health care career decisions.

Each session will discuss the following programs, with time for Q&A after:

- Central Processing Distribution
- Surgical Technology
- Veterinary Technician
- Respiratory Therapy
- Nursing
- Physical Therapist Assistant
- Occupational Therapy Assistant
- Health Information Technology
