Center Campus, UC1-225

**Your guide to successfully transferring from  
Macomb Community College to complete your  
degree at a four-year college or university.**

### Starting at Macomb is the Smart Choice!

Completing one to three years at Macomb and then transferring to complete  
your bachelor's degree is the smart choice:

- **Macomb is affordable**—tuition costs at public and private colleges and universities are four to six times higher
- **Macomb delivers quality courses**—for example, Introductory Psychology is the same at Macomb as at the four-year schools
- **Macomb is convenient**—you won't need to spend money on housing and travel with Macomb's convenient campuses and online courses
- **Macomb offers academic support**—we provide free tutoring at the Academic Success Centers
- **Macomb helps you find your way**—if you are undecided about your major or career path, Macomb is a great place to start; our counselors and Career Services staff can point you in the right direction

### Transfer Resources

The Counseling staff at Macomb can assist you with your transfer  
choices and options:

- **College/University**—where to transfer
- **Career**—the degree needed for your career path
- **Courses**—courses that will transfer if you are undecided

Warren, MI 48088

Center Campus, H103  
44575 Garfield Road  
Clinton Township, MI 48038

### The 1-2-3s of Transfer

Generally, an associate degree requires a minimum of 60 credits; a bachelor's degree requires a minimum of 120 credits. Macomb has agreements with many four-year schools that, in some cases, allow you to complete three years at Macomb before transferring.

3+1 = allows transfer of 75–90 credits—  
only need to complete one year at a four-year school

2+2 = allows transfer of 60–64 credits—  
complete two years at a four-year school

## Transfer Courses and Agreements

Macomb has articulation agreements as transfer options with four-year schools. When followed, these degree plans ensure a seamless transfer process. The links below provide details for each.

**Articulation Agreements**—these degree plans provide for the transfer of an entire prescribed degree program of study. [www.macomb.edu/transfer](http://www.macomb.edu/transfer)

**Michigan Transfer Agreement (MTA)**—is a statewide agreement that provides for the transfer of 30 semester credits to meet many (and in some cases all) of the general education requirements at participating Michigan four-year colleges and universities. [www.mitransfer.org/michigan-transfer-agreement](http://www.mitransfer.org/michigan-transfer-agreement)

**Michigan Transfer Network (MTN)**—helps you chart your transfer pathway. What courses will you complete at Macomb Community College and what courses will you complete at the university? Use the Michigan Transfer Network course equivalency database to verify that your courses will transfer between institutions. [www.mitransfer.org/plan](http://www.mitransfer.org/plan)

## Unique Options

**Macomb University Center**, located on Macomb's Center Campus in Clinton Township, offers programs through partnerships with four-year colleges and universities, providing Macomb County residents increased access to upper-level bachelor's, master's and doctoral degree programs. **Wayne Advantage**—This program is for Macomb Community College students who want to get a head start on their bachelor's degree from Wayne State University. Concurrent enrollment allows you the flexibility of taking courses at both institutions, broadening course availability and location of courses. [www.wayne.edu/admissions/transfer/wayne-advantage](http://www.wayne.edu/admissions/transfer/wayne-advantage)

## The Value of an Associate Degree

Research shows that students who complete an associate degree prior to transfer are nearly three times more likely to earn their bachelor's degree than those who do not. In addition, employers value the critical-thinking, problem-solving and technical skills you have acquired by earning your associate degree. Average lifetime earnings of those who hold bachelor's degrees are nearly \$1 million more than those of high school graduates.

## Reverse Transfer

If you do transfer to a four-year school before completing your associate degree, you may be able to "reverse transfer" the credits you earn at the four-year school to satisfy the requirements of and receive an associate degree.
