Fiscal Year 2024: Infrastructure, Technology, Equipment, Maintenance, Technology and Safety Funds Certification Form

Institution: Macomb Community College

To determine your institution's eligibility to receive ITEMS funding under Sections 216c of PA 103 of 2023 and Sec. 216d of SB 174 of 2023, please fill out this form and return it to the State Budget Office (SBO) by **January 1st, 2024**.

To be eligible for ITEMS funding, a community college must not have received a planning or construction authorization for a capital outlay project from January 1, 2023, to March 1, 2024. Community colleges must certify that they did not receive and are not projected to receive a capital outlay planning or construction authorization through a Public Act during this period.

Please respond to the following questions regarding ITEMS funding eligibility. Community colleges should report any capital outlay project authorized under HB 4292 of 2023, effective February 2024, for the purposes of this certification.

1. To determine your institutions' eligibility for funding as required in section 216c of PA 103 of 2023 and in section 216d of SB 174 of 2023, has your community college received or is it projected to receive any capital outlay planning or construction authorization from the State of Michigan from January 1st, 2023-March 1, 2024, through a signed Public Act?

   ☒ **Yes** ☐ **No**

2. **If you answered "no" above, please respond:** Per section 216c of PA 103 of 2023, I agree to only use infrastructure, technology, equipment, maintenance, housing, and safety funding on:
   - Necessary improvements and deferred maintenance of community college buildings, facilities, and other physical infrastructure.
   - Necessary improvements and deferred maintenance of information technology.
   - Other technology infrastructure.
   - Other equipment.
   - Other purposes related to infrastructure, technology, equipment, and maintenance.
   - Construction, renovation, or the purchase of student housing.
   - Upgrades to safety and security infrastructure.

   ☐ **Yes** ☐ **No**

Any community college that answers yes to question 1 above will not receive ITEMS funding for Fiscal Year 2024[1].

If further capital outlay projects are *authorized through a signed Public Act* between December 15, 2023, and March 1, 2024, SBO will resend a certification form for colleges to report new planning or construction authorizations. SBO will then implement requirements under Sec. 216d of SB 174 of 2023 to either remit or withhold monthly payments for colleges with new projects and will redistribute returned ITEMS funding to eligible institutions without capital outlay authorization.

[1] Community colleges that did receive a capital outlay authorization in HB 4292 of 2023 should mark question 1 "yes". These colleges will not receive ITEMS funding and therefore have no funds to remit or withhold in Sec. 216d of SB 174 of 2023.

I certify that the information given above is accurate to the best of my knowledge.
