

THERE'S A WAY

Do you know how to get where you want to go? Western Michigan University can help. We're committed to being learner centered, discovery driven and globally engaged. And we're very happy to bring the resources of a high activity research university to students in Metro Detroit.

WMU began offering "extension classes" in 1905, and now offers full bachelor's and master's degrees at nine locations in seven cities across the state of Michigan and online. Today, we're very proud to partner with Macomb Community College, helping bring our academic programs to Metro Detroit.

Plan now for January:

Undergraduate programs:

- B.S. in Interdisciplinary Health Services (available January 2015)

Graduate programs:

- M.A. in Behavior Analysis (available January 2015)
