The American Registry of Radiologic Technologists (ARRT) certification in Radiography requires candidates to have earned, minimally, an associate degree from an academic institution that is accredited by an agency recognized by ARRT.

Macomb Community College partners with the DMC Sinai-Grace Hospital, Providence Hospital, and St. John Hospital & Medical Center to grant an Associate of Applied Science in Radiologic Technology.

ASSOCIATE OF APPLIED SCIENCE DEGREE REQUIREMENTS
(Minimum 62 Semester Hours)

In this collaboration, Macomb will prepare students by providing the necessary prerequisite and general education courses (32 credits). A minimum of 15 semester credits must be completed at Macomb. The student will then complete the hospital-based clinical and didactic components of the degree and be granted a block of 30 semester credits.

Upon successful completion of all components, the student will be eligible to apply for graduation with an Associate of Applied Science in Radiologic Technology.

Graduates will be eligible to apply for the ARRT certification examination offered by the American Registry of Radiologic Technology to become certified radiologic technologists.

APPLICATION DEADLINE

All prerequisite courses must be completed during the fall semester prior to your hospital-based program application. The College application deadline is February 1. Hospital-based program application deadlines may vary, and additional information is required by each hospital. Please follow the website links listed on the next page for further information.

All applications must be complete to be considered for admission to a hospital-based program. If a student wishes to apply for more than one hospital-based program, an individual application must be submitted for each program.

By signing the application, applicants agree that Macomb Community College will generate Macomb Community College transcripts to be released to hospital programs for admission review.

Applications are available online at www.macomb.edu. For courses taken outside of Macomb, an official transcript must be sent to the Macomb address on the next page.

Once a student is accepted in a hospital-based clinical, they are no longer eligible for financial aid through Macomb. The hospitals do not offer financial aid. Contact a specific hospital for more details, including current tuition rates and other costs.
PREREQUISITE COURSES

Macomb Community College requires the following courses be completed with a grade of "C" (2.0) or better. Completion of prerequisite courses with minimum grades does not guarantee admission to a hospital-based program.

<table>
<thead>
<tr>
<th>Prerequisite Course Requirements</th>
<th>Credits</th>
<th>MCC Group</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1180 (Communications 1)</td>
<td>4</td>
<td>I.A</td>
